COMMENTS: Toured facility with Plant Manager, Mr. Daniel Gilmer. The site appeared very clean as it re-opened less than a year ago and the batching equipment had been sanded and painted. Mr. Gilmer mentioned the new fence that was put up around the waste water pond. He also mentioned that baghouses are checked weekly. I watched one truck being loaded and no fugitive dust was observed during the loading or anywhere else on the site. All VE testing is up to date.
