COMMENTS:

Old Castle produces masonry material for retailers such as Home Depot and Lowes. The inspection was hosted by Mark Lawrence and John Widell. Visible Emissions testing was performed by Arlington of Arlington Environmental Services. During the inspection, visible emissions testing was observed for two cement silos, a slag silo, and tumbler. Testing of the silos was conducted at a process rate of 9 lbs/psg. The facility's management was advised to provide an administrative update to the Department regarding changes of authorized representative. The facility was well maintained and no violations were observed.
