**COMMENTS:** In a compliance inspection conducted on 4/19/2008, AQD staff observed activities at Cable Marine West. The facility is a marina with 4 on-water painting bays and utilizes part if the yard for bottom painting. AQD staff was accompanied by Gary Strum (manager) during the inspection. The houseekping was better in the yard than it was the previous year and all boats being worked on in the on-water hangers are boomed off.

Cable Marine staff (Alex) later contacted AQD staff to inform them that they would be mailing the VOC logs (the facility keeps daily logs so they needed to be consolidated.).
