COMMENTS: Ken Wall conducted an INS3 inspection of the facility and observed the VE Test conducted by Tarmac. The facility was in good condiction and no visible emissions were observed. At the time of the inspection, the batching rate of the weight-hopper (EU-004) was not known. Ken Wall asked for the batch weights in order to calculate the batching rate/hour. Tarmac responded on 11/13/2013 and 11/21/13 with the requested data.
