COMMENTS: On June 7, 2011, Department personnel conducted the annual air program compliance inspection of WPR, Inc. concrete batch plant in Santa Rosa County. No trucks were loaded during the inspection. Mr. Douglas Russell was available to assist during the inspection.

A majority of the yard is covered with gravel, but some areas where trucks drive are paved. Stock piles are stored within containment walls and sprinklers are located at each pile to prevent fugitive emissions. No emissions were noted during the inspection. The facility is powered by electricity so fuel records are not required.
