## **COMMENTS:**

Required records were maintained on site and current.

Mr. Yoo showed me his halogen leak detector and indicated that he was using it on a weekly basis to check for leaks.

Mr. Yoo signed an annual compliance certification form indicating he has been in compliance with regulations applicable to his facility.

The Federal Standard, Title 40 Code of Federal Regulations (40CFR), Section 63.324(f), provides that each owner or operator of a dry cleaning facility shall submit, to the Administrator or delegated State authority by registered mail on or before July 28, 2008, a notification of compliance status which is signed by a responsible official who shall certify its accuracy. A "Perchloroethylene (Perc) Dry Cleaning Notification to EPA & FLDEP" form is enclosed to help you comply with this standard. Also enclosed is a copy of the Federal Standard, 40 CFR 63.322, to help you answer one of the questions on the form regarding whether or not your Perc dry cleaning operation is in compliance with each applicable requirement of 40CFR 63.322.
