

## **ANIMAL CREMATORY**

## COMPLIANCE INSPECTION CHECKLIST

	ANNUAL (INS1, INS2)	COMPLAINT/DISCOVER	I (CI)		
	RE-INSPECTION (FUI)	ARMS COMPLAINT NO:			
AIRS ID#: 0970075 DA	TE: <u>1/26/2007</u>	ARRIVE: <u>12:00</u>	DEPART: <u>12:15</u>		
FACILITY NAME: TR	AILS END ANIMAL CREMA	ATORY/KISSIMMEE			
FACILITY LOCATION	<b>N:</b> 970 N BASS RD				
	KISSIMMEE 34746				
RESPONSIBLE OFFIC	TAL:	PHONE:	(407)396-4395		
CONTACT NAME:		PHONE:			
REMITTANCE YEAR:	ENTITI	LEMENT PERIOD: 6/30/2001 (effective date)	/ 6/30/2006 (end date)		
PART I: INSPECTION  IN COMPLIANCE	CE MINOR Non-COM	·	Γ Non-COMPLIANCE	3	
		EMENTS – Rule 62-296.401, F.A	.C.		
(check ☑ appropriate	* */			□ v <sub>os</sub> [	✓ M

(check ☑ appropriate box(es))	
1. Is there <b>Continuous Emissions Monitoring System</b> (CEMS) equipment installed on each unit	
primary and secondary chambers where there is a 1.0 second gas residence time in the secondary	
accordance with the manufacturer's instructions?	
a) Do temperature probes seem to be properly placed?	
b) Are the following records kept on file, available for inspection for at least two years following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records kept on file, available for inspection for at least two years followed in the following records in the followin	wing the recording of such
measurements, maintenance, reports and records?	
1) All measurements (including CEMS)	Yes N
2) Monitoring device	
3) Performance Testing Measurements	
4) CEMS Performance Evaluation	
5) All CEMS or monitoring device calibration checks	
6) Adjustments	
<ul><li>7) Preventive maintenance performed on systems/devices</li><li>8) Corrective maintenance performed on systems/devices</li></ul>	
2. Was this crematory unit constructed: (check only one 🗹 box)	Yes N
a) BEFORE August 30, 1989? (If this box checked, continue on to #3 and skip #4)	
b) ON or AFTER August 30, 1989? (If this box checked, skip #3 and continue on to #	#4)
3. If constructed <b>BEFORE</b> August 30, 1989 is the:	<del>14</del> )
a) secondary chamber combustion zone providing at least a 1.0 second gas residence time @	0 1600°F?
b) actual operating temperature of the secondary chamber combustion zone no less than <b>140</b>	
throughout the combustion process in the primary chamber?	
c) cremation in the primary chamber begun after the secondary chamber combustion zone te	
is equal to or greater than 1400°F?	
d) required monitoring equipment installed and operational, and providing continuous monit	
record the temperature at the point or beyond where 1.0 second gas residence time is obta	
secondary chamber combustion zone according to the manufacturer's instructions?	
If constructed <b>ON</b> or <b>AFTER</b> August 30, 1989 is the:	
a) volume in the secondary combustion zone sufficient to provide at least a 1.0 second gas re	esidence time
@ 1800° F?	
b) the actual operating temperature of the secondary chamber combustion zone no less than	1600°F
throughout the combustion process in the primary chamber?	
c) secondary chamber combustion zone temperature equal to or greater than 1600°F before t	the cremation
process begins in the primary chamber?	
5. Are appropriate leak-proof containers containing no more than 0.5 % (percent) by weight chlo	orinated
plastics used during the cremation of dead animals?	
a) If the answer to question 4 above is YES, is certifying documentation from the manufacture	irer that they
are composed of 0.5% or less by weight chlorinated plastics kept on file at the site for the	
their use and for at least two years after their use?	
b) If plastic bags are used for the cremation of animals are they non-chlorinated and no less	than 3 mils
thick?	
c) Are dead animals, which have been used for medical or commercial experimentation, or or	
materials, including biomedical wastes (Rule 62-210.200, F.A.C.), incinerated at this local	
6. During this review period, was the largest batch load cremated 500 pounds per hour or less?	
7. Have all crematory operators been trained and certified by a Department-approved training pro	
a) Are copies of the training certificates all crematory operators kept on file at the facility fo	
of the operator's employment & for an additional two years after termination of employment	nent?

A. New or Modified Process Equipment			
<ul> <li>d) If you answered <u>YES</u> to any of the above, did notification form and appropriate fee (Rule 6 local program office?</li> <li>2. If a crematory unit has been modified to the extension</li> </ul>	thout replacement? ally different than that noted on the most d the owner submit a new and complete 62-4.050, F.A.C.) to the appropriate DEP or that a Department air construction permit	□Yes □Yes □Yes	
was required, have all operators been retrained to 3. In the case of new or modified equipment, where required, has the owner submitted copies of all of a) submitted within the 15 day required window	perator training certificates?	∐Yes □Yes □Yes	
3. In the case of new or modified equipment, where required, has the owner submitted copies of all or	a Department air construction permit was perator training certificates?	□Yes	
3. In the case of new or modified equipment, where required, has the owner submitted copies of all of a) submitted within the 15 day required window	a Department air construction permit was perator training certificates?	□Yes	1
