COMMENTS: On September 03, 2009 I visited this facility to conduct an annual compliance inspection. Ray Gordon, Frank Delgado, and Grace Quintanilla accompanied me to the inspection. On site I met Ms.Luisa Mora, an attendant of the facility. This facility has two dry cleaning machines and both were operational at the time of inspection. No leaks were detected in the dry cleaning machines. Halogen leak detector was available. According to Mr.Julio Sanchez, temporary attendant, he did not have access to any perc receipts and consumption records. A follow up is required by 09/15/2009 to get all the required records.
