**COMMENTS:** In a compliance inspection conducted on 4/24/2007, AQD staff observed operations at Billfish Marina. AQD staff was accompanied by Dee Dee Pegg (General Manager) on the inspection. The facility conducts mostly bottom painting. Tarpaulins were observed under vessles that were resting on open ground. The VOC records were submitted to AQD staff during the inspection. The facilities highest daily VOC was 7.9 lbs/day. This well below their threshold of 44lbs per day.
