COMMENTS: 12-10-2008 Inspected facility found that the facility did not have aperc detector or perc purchase records and maintanence records available for inspection. I recall from last years inspection that Mr. Smith had records available forr upto five years. So I left a field warning notice for Mr. Smith agreed he could have the records and perc detector with-in 15 days. Performed reinspection on 1-20-2009 and Mr. Smith did not have records. Mr. Smith stated he had a fire since the last inspection and he would like more time. Mr. Smith did have the perc detector and he did demonstrate he new how to use it.

Mr. Smith sent in the records along with Perc Notification he sent certified mail to EPA and DEP.
