**COMMENTS:** In a compliance inspection conducted on 6/24/2013, AQD staff (E. Susky) observed operations at Alpine Jacquar. The facility is an automotive paint/body shop. Mr. Michael Schmidt (manager) accompanied the staff on the inspection. The facility has two automotive spray booths, but uses one more frequently for spraying and one for drying. They also have a paint room and hazardous material storage area. Mr. Schmidt emailed the VOC records and the facility is below their permit threshold.
