

**REFERRAL FOR ENFORCEMENT REVIEW**

To: Danielle D. Henry, Enforcement Coordinator  
From: Joseph V. Panetta, Environmental Specialist III   
Date: March 12, 2008  
Company: Duratek Wall Corp.  
AIRS ID: 1050345

Subject: Failure to submit Concrete Batching Plant Air General Permit Registration Form and VE test

The Compliance Section refers the following for enforcement review:

**On February 12, 2008 the Department received a VE test from the above mentioned facility. VE was performed February 7, 2008**

**A records review that day found that :**

- 1. Airs ID # 1050345-001-AG expired on February 24, 2006 and Duratek Wall Corp. failed to submit a renewal Air General Permit Registration Form.**
- 2. Also a VE emissions test for the calendar year 2007 was not submitted. VE's submitted were performed January 19, 2006, then February 7, 2008.**

**This facility is located on 3390 Highway 17 North, Bartow, Fl 33830 in Polk County.**

Note: This is the old rule:

DEP Form No. 62-210.920(7) Part II (2)(a)(b) (effective June 21, 2001 until January 10, 2007) states:

**(2) General Conditions.** All terms, conditions, requirements, limitations, and restrictions set forth in Rule 62-210.300(4)(e), F.A.C., and listed below (Rule 62-210.300(4)(e)1. through 15., F.A.C.) are "general permit conditions" and are binding upon the owner or operator of the facility utilizing the concrete batching plant air general permit.

- (a) A permittee's use of a general permit is limited to five years. No later than 30 days prior to the fifth anniversary of the filing of intent to use the general permit, the owner or operator shall submit a new notice of intent which shall contain all current information regarding the facility or emissions unit. Eligibility to use the general permit is not transferable and does not follow a change in ownership of the facility or emissions unit. Prior to any sale, other change of ownership, or permanent shutdown of the facility, the owner or operator is encouraged to notify the appropriate Department of Environmental Protection district office or local air pollution control program office to which the Department has delegated its permitting authority of the pending action. The owner shall remain liable for corrective actions that may be required as a result of any violations occurring in the time after the sale or legal transfer of the facility or emissions unit, but before a new owner is entitled to use an air general permit.**

**DEP Form No. 62-210.920(7) Part II (4)(d)(e) ( effective June 21, 2001 until January 10, 2007)****states:**

- (d) Per the conditions of Rule 62-297.310(7)(a), F.A.C., each dust collector exhaust point shall be tested annually for compliance with the visible emission limiting standard of Rule 62-296.414(1), F.A.C. New facilities permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits, shall demonstrate initial compliance no later than 30 days after beginning operation, and annual compliance within 60 days prior to each anniversary of the air general permit notification form submittal date. Existing facilities permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits, shall demonstrate compliance within 60 days prior to submitting an air general permit notification form and within 60 days prior to each anniversary of the air general permit notification form submittal date. (Rule 62-296.414(4), F.A.C.)
- (e) Each dust collector exhaust point shall be tested for a minimum of 30 minutes or, if the operation is normally completed within less than 30 minutes and does not recur within that time, the test shall last for the length of the loading operation. (Rule 62-297.310(4)(a), F.A.C.)

*Note: This is the new rule:*

**Rule 62-210.310(2)(b)2, F.A.C.**

**2. Re-registration.** Registration of a facility which is currently authorized to operate under the terms and conditions of an air general permit is classified as a re-registration. An owner or operator shall reregister the facility in the following cases:

- a. Impending expiration of the term for air general permit use;**  
 b. Change of ownership of all or part of the facility;  
 c. Proposed new construction, modification, or other equipment change that requires registration pursuant to paragraph 62-210.310(2)(e), F.A.C.; and  
 d. Any other change not considered an administrative correction under paragraph 62-210.310(2)(d), F.A.C.

**Rule 62-210.310(3) (a), F.A.C.**

a) The owner or operator's use of an air general permit is limited to five (5) years. Prior to the end of the five (5) year term, the owner or operator who intends to continue using the air general permit for the facility shall re-register with the Department pursuant to subparagraph 62-210.310(2)(b)2., F.A.C. To avoid lapse of authority to operate, the owner or operator must submit the proper registration form and processing fee at least thirty (30) days prior to expiration of the facility's existing air general permit.

**Rule 62-296.414 (4) F.A.C. states:**

(b) The owner or operator of any concrete batching plant operating under the authority of an air construction permit or air operation permit shall have a performance test conducted for visible emissions for each dust collector exhaust point prior to submitting the application for an initial air operation permit, and annually thereafter.

OLD Rule

CONCRETE BATCHING PLANT  
AIR GENERAL PERMIT NOTIFICATION FORM

**Part II. Permit Terms and Conditions**

(Keep this Part onsite for use by facility staff.)

- (1) **Applicability.** This part of the Concrete Batching Plant Air General Permit Notification Form includes the principal terms and conditions of the air general permit for concrete batching plants established by the Department at Rule 62-210.300(4)(c)2., F.A.C. Throughout the term of the air general permit, the owner or operator shall ensure that the facility maintains its eligibility to use this air general permit and complies with all terms and conditions of the air general permit.
- (2) **General Conditions.** All terms, conditions, requirements, limitations, and restrictions set forth in Rule 62-210.300(4)(e), F.A.C., and listed below (Rule 62-210.300(4)(e)1. through 15., F.A.C.) are "general permit conditions" and are binding upon the owner or operator of the facility utilizing the concrete batching plant air general permit.
- (a) A permittee's use of a general permit is limited to five years. No later than 30 days prior to the fifth anniversary of the filing of intent to use the general permit, the owner or operator shall submit a new notice of intent which shall contain all current information regarding the facility or emissions unit. Eligibility to use the general permit is not transferable and does not follow a change in ownership of the facility or emissions unit. Prior to any sale, other change of ownership, or permanent shutdown of the facility, the owner or operator is encouraged to notify the appropriate Department of Environmental Protection district office or local air pollution control program office to which the Department has delegated its permitting authority of the pending action. The owner shall remain liable for corrective actions that may be required as a result of any violations occurring in the time after the sale or legal transfer of the facility or emissions unit, but before a new owner is entitled to use an air general permit.
  - (b) The general permit is valid only for the specific activity indicated. Any deviation from the specified activity and the conditions for undertaking that activity shall constitute a violation of the permit.
  - (c) The general permit does not convey any vested rights or any exclusive privileges, nor does it authorize any injury to public or private property nor any invasion of personal rights. It does not authorize any infringement of federal, state, or local laws or regulations.
  - (d) The general permit does not relieve the owner or operator of the facility or emissions unit from liability and penalties when the construction or operation of the permitted activity causes harm or injury to human health or welfare; causes harm or injury to animal, plant or aquatic life; or causes harm or injury to property. It does not allow the owner or operator to cause pollution in contravention of Florida law.
  - (e) The general permit conveys no title to land or water, nor does it constitute State recognition or acknowledgment of title.
  - (f) The owner or operator shall make every reasonable effort to conduct the specific activity authorized by the general permit in a manner that will minimize any adverse effects on adjacent property or on public use of the adjacent property, where applicable, and on the environment, including fish, wildlife, natural resources, water quality or air quality.
  - (g) The owner or operator shall allow a duly authorized representative of the Department access to the permitted facility, emissions unit, or activity at reasonable times to inspect and test, upon presentation of credentials or other documents as may be required by law, to determine compliance with the general permit and Department rules.
  - (h) The owner or operator shall maintain any permitted facility, emissions unit, or activity in good condition. Throughout the term of the air general permit, the owner or operator shall ensure that the facility or emissions unit maintains its eligibility to use the air general permit and complies with all terms and conditions of the air general permit.

# OLD Rule

normal batching rate and duration. Each test report shall state the actual batching rate during emissions testing.

- (d) Per the conditions of Rule 62-297.310(7)(a), F.A.C., each dust collector exhaust point shall be tested annually for compliance with the visible emission limiting standard of Rule 62-296.414(1), F.A.C. New facilities permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits, shall demonstrate initial compliance no later than 30 days after beginning operation, and annual compliance within 60 days prior to each anniversary of the air general permit notification form submittal date. Existing facilities permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits, shall demonstrate compliance within 60 days prior to submitting an air general permit notification form and within 60 days prior to each anniversary of the air general permit notification form submittal date. (Rule 62-296.414(4), F.A.C.)
- (e) Each dust collector exhaust point shall be tested for a minimum of 30 minutes or, if the operation is normally completed within less than 30 minutes and does not recur within that time, the test shall last for the length of the loading operation. (Rule 62-297.310(4)(a), F.A.C.)

**ARMAS/UPDATED**

Dear Ms. Hughes:

Pursuant to the conditions of the Concrete Batch Air General Permit we are providing EPA/DEP Method 9 opacity tests, which were performed on February 07, 2008, for the material silos located at Duratek Wall Corp. plant, located at 3390 Hwy 17 North, Bartow, Florida 33830.

If you have any question please contact me at (407) 822-7655.

Respectfully submitted,

THIS MEMORANDUM

Is an acknowledgment that Bill of Lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

WARNING! Portland cement, Cemplus Slag and lime are injurious to eyes and cause skin irritation. Avoid eye contact or prolonged contact with skin. Wash thoroughly after handling. In case of eye contact flush with plenty of water for at least fifteen minutes. Consult a physician immediately. Keep out of reach of children.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading

Suwannee American Cement Company • 5117 U.S. Hwy. 27, Branford, Florida, USA

the property described below, in apparent good order, except as noted (contents and conditions of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery of said destination, if on its route, otherwise to delivery to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all of any of said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) Uniform Freight Classification in effect on the date hereof, if this is a rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This shipment is correctly described. Subject to verification by the EASTERN OR SOUTHERN WEIGHING & INSPECTION BUREAU according to agreement. Suwannee American Cement Shipper This is the property of the shipper, and no reconsignment or Diversion is to be made unless authorized by consignator.

\*If the shipment moves between two ports by a carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight. NOTE: Where the rate is dependent on value, the shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically by the shipper to be not.

Subject to Section 7 of conditions of applicable bill of lading, if the shipment is to be delivered to the consignee without recourse on the consignee, the consignee shall sign the following statement. The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

**WARNING!**  
Portland cement, Cemplus Slag and lime are injurious to eyes and cause skin irritation. Avoid eye contact or prolonged contact with skin. Wash thoroughly after handling. In case of eye contact flush with plenty of water for at least fifteen minutes. Consult a physician immediately. Keep out of reach of children.

THIS MEMORANDUM

is an acknowledgment that Bill of Lading has been issued and is not the Original Bill of Lading, nor a copy or duplicate, covering the property named herein, and is intended solely for filing or record.

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading

**Suwannee American Cement Company • 5117 U.S. Hwy. 27, Branford, Florida, USA**

The property described below, in apparent good order, except as noted (contents and conditions of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person of corporation in possession of the property under the contract) agrees to carry to its usual place of delivery of said destination, if on its route, otherwise to delivery to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all of any of said property over all or any portion or said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) Uniform Freight Classification in effect on the date hereof, if this is a rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This shipment is correctly described. Subject to verification by the EASTERN OR SOUTHERN WEIGHING & INSPECTION BUREAU according to agreement.

**Suwannee American Cement**

Shipper

This is the property of the shipper, and no reconsignment or Diversion is to be made unless authorized by consignor.

\*If the shipment moves between two ports by a carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight.

NOTE: Where the rate is dependent on value, the shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically by the shipper to be not.

Subject to Section 7 of conditions of applicable bill of lading, if the shipment is to be delivered to the consignee without recourse on the consignor, the consignor shall sign the following statement.

The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.

**Suwannee American Cement**

**From:** Doug Bauman [doug4ucf@earthlink.net]  
**Sent:** Friday, February 22, 2008 2:04 PM  
**To:** Panetta, Joe  
**Cc:** gsparks73@wildblue.net  
**Subject:** Duratek Precast Technologies, Facility ID# 1050345  
**Attachments:** 2007, AG permit Renewal.pdf

Dear Joe Panetta,

Please find attached the existing renewal notification that was sent to DEP in February of 2007. As indicated in our phone call we spoke with Duratek's accounting office and they canceled the check in December 2007, because it was never cashed by DEP. It appears that the package was either lost getting to you, lost in DEP's internal mail system, or lost if forwarded to Tallahassee.

Hopefully this will help you track down the submitted notification package. In either case I have an original (with Gary Sparks' original signature), but we would have to prepare a new fee check. Please get back with me when you have a chance.

Thank you,  
Douglas Bauman, MSE, P.E.

Tampa, FL 33830

Attention: Joe Panetta

**RE: Renewal of Air General Permit  
Duratek Wall Corporation (DEP Facility ID 1050345)**

Dear Mr. Panetta:

Please find enclosed two completed and signed Concrete Batching Plant Air General Permit Renewal Forms for the above referenced facility. Also included is the processing fee check for \$100.00.

Please note the original renewal NOI was sent to DEP in December 2005 under General Environmental Engineering's letterhead; however, it was returned (along with the original fee check) to Duratek Wall Corporation without my knowledge. Therefore, General Environmental Engineering submitted the timely VE tests, performed in January 2006, to DEP without returning the NOI and fee check. The mix up would have been prevented if the original NOI and fee check had been returned to our firm or if our firm was courtesy copied on the returned NOI.

Should you have any question or need any additional information, please contact me at (407) 822-7655.

Respectfully submitted,  
General Environmental Engineering, Inc.

  
Douglas W. Bauman, MSE, P.E.  
Vice President/Senior Engineer

**CONCRETE BATCHING PLANT  
AIR GENERAL PERMIT REGISTRATION FORM**

**Part II. Notification to Permitting Office**

(Detach and submit to appropriate permitting office; keep copy onsite)

**Instructions:** To give notice to the Department of an eligible facility's intent to use this air general permit, the owner or operator of the facility must detach and complete this part of the Air General Permit Registration Form and submit it to the appropriate Department of Environmental Protection or local air pollution control program office which has permitting authority. Please type or print clearly all information, and enclose the appropriate air general permit registration processing fee pursuant to Rule 62-4.050(4)(o), F.A.C. (\$100 as of the effective date of this form)

**Registration Type**

Check one:

**INITIAL REGISTRATION** - Notification of intent to:

- Construct and operate a proposed new facility.
- Operate an existing facility not currently using an air general permit (e.g., a facility proposing to go from an air operation permit to an air general permit).

**RE-REGISTRATION** (for facilities currently using an air general permit) - Notification of intent to:

- Continue operating the facility after expiration of the current term of air general permit use.
- Continue operating the facility after a change of ownership.
- Make an equipment change requiring re-registration pursuant to Rule 62-210.310(2)(e), F.A.C., or any other change not considered an administrative correction under Rule 62-210.310(2)(d), F.A.C.

**Surrender of Existing Air Operation Permit(s) - For Initial Registrations Only**

If the facility currently holds one or more air operation permits, such permit(s) must be surrendered by the owner or operator upon the effective date of this air general permit. In such case, check the first box, and indicate the operation permits being surrendered. If no air operation permits are held by the facility, check the second box.

- All existing air operation permits for this facility are hereby surrendered upon the effective date of this air general permit; specifically permit number(s): \_\_\_\_\_
- No air operation permits currently exist for this facility.

**General Facility Information**

**Facility Owner/Company Name** (Name of corporation, agency, or individual owner who or which owns, leases, operates, controls, or supervises the facility.)

Duratek Wall Corporation

**Site Name** (Name, if any, of the facility site; e.g., Plant A, Metropolis Plant, etc. If more than one facility is owned, a registration form must be completed for each.)

Duratek Wall Corporation

**Facility Location** (Provide the physical location of the facility, not necessarily the mailing address.)

Street Address: 3390 Highway 17 North

City: Bartow

County: Polk

Zip Code: 33830

**Owner/Authorized Representative Statement**

This statement must be signed and dated by the person named above as owner or authorized representative

*I, the undersigned, am the owner or authorized representative of the owner or operator of the facility addressed in this Air General Permit Registration Form. I hereby certify, based on information and belief formed after reasonable inquiry, that the facility addressed in this registration form is eligible for use of this air general permit and that the statements made in this registration form are true, accurate and complete. Further, I agree to operate and maintain the facility described in this registration form so as to comply with all applicable standards for control of air pollutant emissions found in the statutes of the State of Florida and rules of the Department of Environmental Protection and revisions thereof.*

*I will promptly notify the Department of any changes to the information contained in this registration form.*

**Type of Facility**

Check one:

**Stationary Facility**

**Relocatable Facility**

**Type(s) of Reasonable Precautions Used to Prevent Unconfined Emissions**

Check all precautions to be used for the management of roads, parking areas, stock piles and yards:

**Pave Roads**

**Pave Parking Areas**

**Pave Yards**

**Maintain Roads/Parking/Yards**

**Use Water Application**

**Use Dust Suppressant**

**Remove Particulate Matter**

**Reduce Stock Pile Height**

**Install Wind Breaks**

Check all precautions to be used for the management of drop points to trucks:

**Spray Bar**

**Chute**

**Enclosure**

**Partial enclosure**

**Description of Reasonable Precautions**

Below, or as an attachment to this form, provide details of all types of reasonable precautions to be used to prevent unconfined emissions at the facility.

Paved drives and parking areas, maintenance of paved roads and drives including periodic dry sweeping for removal of potential particulate matter, water application to stock piles and unpaved drives, barrier walls for material stock piles.

Note: No drop points to trucks.

### **Description of Facility**

Below, or as an attachment to this form, provide a description of the concrete batching plant operations at the facility in sufficient detail to demonstrate the facility's eligibility for use of this air general permit and to provide a basis for tracking any future equipment or process changes at the facility. Describe all air pollutant-emitting processes and equipment at the facility, and identify any air pollution control measures or equipment used.

Duratek Wall Corporation manufactures pre-cast concrete tilt-up walls and panels. They produce on average 90 cubic yards of concrete per day. They may operate between the hours of 4:30am to 8:00pm. The Facility ID No. is 1050345.

Typical concrete batch plant with two cement silos. The silo capacities are as follows: Silo A = 700 barrels and Silo B = 270 barrels. The typical cement silo loading rate is equal to approximately 25 tons per hour.

Air pollution control equipment:

- WAM (Model ROI), 265 ft squared poly pleat panels (Silo A)
- Belgrade, Eighteen 8"\*49.5" polyester bags (Silo B)

RECEIVED, subject to the classifications and tariffs in effect on the date of the issue of this Bill of Lading

**Suwannee American Cement Company • 5117 U.S. Hwy. 27, Branford, Florida, USA**

The property described below, in apparent good order, except as noted (contents and conditions of contents of packages unknown), marked, consigned, and destined as indicated below, which said carrier (the word carrier being understood throughout this contract to mean any person or corporation in possession of the property under the contract) agrees to carry to its usual place of delivery of said destination, if on its route, otherwise to delivery to another carrier on the route to said destination. It is mutually agreed, as to each carrier of all of any said property over all or any portion of said route to destination, and as to each party at any time interested in all or any of said property, that every service to be performed hereunder shall be subject to all the terms and conditions of the Uniform Domestic Straight Bill of Lading set forth (1) Uniform Freight Classification in effect on the date hereof, if this is a rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment.

Shipper hereby certifies he is familiar with all the terms and conditions of the said bill of lading, including those on the back thereof, set forth in the classification or tariff which governs the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for himself and his assigns.

This shipment is correctly described. Subject to verification by the EASTERN OR SOUTHERN WEIGHING & INSPECTION BUREAU according to agreement.

**Suwannee American Cement** Shipper

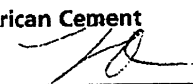

This is the property of the shipper, and no reconsignment or Diversion is to be made unless authorized by consignee.

If the shipment moves between two ports by a carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight.

NOTE: Where the rate is dependent on value, the shippers are required to state specifically in writing the agreed or declared value of the property. The agreed or declared value of the property is hereby specifically by the shipper to be not.

Subject to Section 7 of conditions of applicable bill of lading, if the shipment is to be delivered to the consignee without recourse on the consignor, the consignor shall sign the following statement.  
The carrier shall not make delivery of this shipment without payment of freight and all other lawful charges.
