COMMENTS: The facility did not have its 12-mo consecutive total available since 3/28/07. Spray equipment was maintained. The facility has 2 HVLP spray machines. The applicators are cleaned bi-weekly. Filters are changed every week. All gel coat material was sealed.

The facility moved to a new warehouse at the facility address and did not notify the Department. Facility is located at Unit E. The move occurred during early 2008. Additionally, the facility is in non-compliance for incompleted recordkeeping.[jm]
