**COMMENTS:** In a compliance inspection conducted on 12/16/2011, AQD staff (E.Susky) observed operations at Universal Marine. Mr. Butch Risker (manager) accompanied staff on the inspection. The yard has had an entire make over since the previous years it was in operation. Mr. Risker stated that they plan to do some painting on yachts, which is why he got the general permit for surface coating. However, at this time the facility has dockage available for their vessels, but painting has not commenced. The housekeeping was observed to be good and Mr. Risker is making an effort to adhere to all environmental regulations.
