Approximate Date of Next Inspection

COMMENTS: In a compliance inspection conducted on 02/23/2011, AQD staff observed operations at Nautical Furnishings. The facility is a cabinet shop that specializes in custom wood creations. Mr. Joakim Hjornhede (shop manager) accompanied AQD staff (E.Susky) on the inspection. The facility has one spray booth and hazardous materials area. The spray booth is well maintained and is utilizes for smaller wood parts. Mr. Hjornhede stated that bigger jobs (that require larger paint/finishing jobs) are contracted outside of the facility. The facility has one dust collector that is old, but properly maintained (no pressure treated wood is utilized). Mr. Hjornhede will be submitting VOC records to the department. The facility has consistently been below their permit threshold.
