COMMENTS: A forty five minutes visible emissions test was performed during pneumatic loading of the silo. The visible emission test result was 0% opacity. During the loading of the silo no unconfined emissions was observed from the hopper, storage, conveying equipment and roads, parking areas, stockpiles and yards. Reviewed records for the months of 3/1/06 through 7/19/06 indicated emission unit in compliance. I informed Mr. Crabb, that it appears the facility is in compliance.
