COMMENTS: On October 28, 2010 I visited this facility to conduct the annual compliane inspection and to attend the visible emissions test. On site I met Sergio Martinez, the owner of the facility and Tony Mazpule, the consultant of the facility. Facility produces approximately 3000 yards of cement per month. Noah Handley, Arlington Environmental Services, conducted the VE test. The silo was loaded with cement at a rate of 10 PSI. I did not observe any visible emissions during the test. No fugitive emissions were observed around the facility.
