

# $\frac{\textbf{NON-METALLIC MINERAL PROCESSING}}{\underline{\textbf{PLANTS}}}$

#### COMPLIANCE INSPECTION CHECKLIST

INSPECTION TYPE: ANNUAL (INS1, INS2)  RE-INSPECTION (FUI)  ARMS COMPLAINT NO:				
AIRS ID#: 7775167 DATE: <u>8/30/2011</u> ARRIVE: <u>10:24 AM</u> DEPART	: <u>11:25 AM</u>			
FACILITY NAME: FLORIDA ROCK & SAND/CEMEX				
FACILITY LOCATION: 13292 NW 118 Avenue				
MIAMI 33178				
OWNER/AUTHORIZED REPRESENTATIVE: DANIEL BEATTY Email: CONTACT NAME: Email: ENTITLEMENT PERIOD: 5/5/2007 / 5/4/2012 (effective date) (end date)  PHONE: (239)267-42 Mobile: PHONE: Mobile:	75			
Facility Section  PART I: INSPECTION COMPLIANCE STATUS (check only one box)				
☐ IN COMPLIANCE ☐ MINOR Non-COMPLIANCE ☐ SIGNIFICANT Non-COMP	LIANCE			
PART II: ONSITE INTRODUCTORY MEETING  1. Name(s) of facility representative(s): ANDY GOICOCHEA  Brief Notes:	(check <b>d</b> only one box for each question)			
2. Is the Authorized Representative still DANIEL BEATTY?  If no, who is?: DEVON COPPOCK	☐ Yes ⊠No			
If different, did the facility provide an administrative update within 30 days?  3. Is the facility contact still?				
4. Will facility be conducting VE test(s) during today's inspection?				

## Emissions Unit Section 1 –Relocatable Non Metallic Mineral Mining Facility

		(check <b>☑</b>	only one
	ł	ox for each	question)
<u>Is</u>	the Emissions Unit (EU) subject to 40 CFR part 60 subpart OOO – Nonmetallic Mineral Processing (Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majorities any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granite Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Chlos and Sodium Sulfate; (7) Pumice; (8) Gilsonite; (9) Talc and Pyrophyllite; (10) Boron, including Borax, and Colemanite; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermic (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumortierite.}	ng Plants? y e, Gravel; Salt; ride, Kernite,	1
	Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill?	∑ Yes	□No
3.	Is the EU located above ground (i.e., not in an underground mine)?		□No □No □No
su	answer to any of the four Questions 1 -4 above is "No" then the EU is not subject to bpart OOO so skip the following questions and go directly to Question 24. the answer to all of the four Questions 1-4 above is "Yes" then continue to Question 5.		
5.	Is the EU subject to 40 CFR part 60 subpart F (Portland Cement Plants) or subpart I (Hot Mix Asphalt Facilities), or does it follow in the plant process any other EU that is subject to 40 CFR part 60 subpart F or subpart I?	□ Vaa	□No
6.	Is the EU located at a fixed sand and gravel plant or crushed stone plant with a capacity less than or equal to 23 megagrams/hour (25 tons/hour)?	<ul><li> Yes</li><li> Yes</li></ul>	□No
7.	Is the EU located at a portable sand and gravel plant or crushed stone plant with a capacity less than or equal to 136 megagrams/hour (150 tons/hour)?	☐ Yes	□No
8.	Is the EU located at a common clay plant or pumice plant with capacity less than or equal to 9 megagrams/hour (10 tons/hour)?	Yes	□No

#### <u>1 -Relocatable Non Metallic Mineral Mining Facility</u>

	Is the EU a wet screening operation or subsequent screening operation, bucket elevator or belt conveyor in a production line that processes saturated material up to the first crusher, grinding mill or storage bin in the production line?	l ng	□No
	Is the EU a screening operation, bucket elevator or belt conveyor in the production line downstream of wet mining operation that process saturated material up to the first crusher, grinding mill or storage bin in the production line?	☐ Yes	□No
If a sub If t	unswer to any of the six Questions 5 -10 above is "Yes" then the EU is not subject to part OOO so skip the following questions and go directly to Question 24. he answer to all of the six Questions 5-10 above is "No" then continue to Question 11.  When was the EU last constructed, modified, or reconstructed?		
	Was the EU constructed, modified, or reconstructed on or after 4/22/2008?	☐ Yes	□No
If a	answer to Question 12 is "No" skip the following questions and go directly to Question 20		
13.	<b>Does the EU have a particulate matter</b> <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device?	☐ Yes	□No
If a	inswer to Question 13 is "No" skip the following questions and go directly to Question 19		
	Initial Tests:  a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU?	☐ Yes ☐ Yes ☐ Yes ☐ Yes	☐ No ☐No ☐No ☐No
	If the EU is a building enclosing any other regulated EUs and all enclosed EUs are not individually in compliance with emissions limits:  a. Was an initial PM stack test performed on each vent control device within 180 days of initial startup of the EU?	☐ Yes	□ No
	b. If yes, was the EU found to be in compliance with the PM limit of 0.032 g/dscm (0.014 gr/dscf)? c. Was an initial VE test performed on fugitive emissions from non-vent building openings? d. Were initial fugitive emissions from non-vent building openings less than or equal to 7% opacity?	Yes Yes Yes	□No □No □No

#### <u>1 -Relocatable Non Metallic Mineral Mining Facility</u>

16. Is a baghouse used to control emissions from the EU?		esNo			
If yes, the owner operator:  conducts quarterly 30-minute VE tests using Method 22;  uses a bag leak detection system specified in 40 CFR 60.674(d);  follows the requirements of 40 CFR 63AAAAA Lime Manufacturing as specified in 40 CFR 60.674(e); or  none of the above (i.e., out of compliance)					
17. If the EU is an individual, enclosed storage bin controlled by a baghouse, were initial fugitive emissions less than or equal to 7% opacity?   N/A		es 🗌 No			
<b>18.Is a wet scrubber used to control emissions from the EU?</b> If yes, does the owner/operator maintain and operate:	☐ Ye	esNo			
a. a device for the continuous measurement of the pressure loss of the gas stream through the scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's instructions?	Y6	es  No			
b. a device for the continuous measurement of the scrubbing liquid flow rate to the wet scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's instructions? {Note: The monitoring device must be certified by the manufacturer to be accurate within +5% of design scrubbing liquid flow rate.}		es  No			
19. Is wet suppression used to control emissions from the EU?		esNo			
<ul> <li>If yes:</li> <li>a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles?</li> <li>b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly?</li> <li>c. Is each inspection of the spray nozzles, including the date and any corrective action taken, recorded in the written or electronic logbook as required by 40 CFR 60.676(b)?</li></ul>		es			
If the EU was constructed, modified, or reconstructed on or after $4/22/2008$ skip the following questions and go directly to Question 24.					
<b>20.Does the EU have a particulate matter</b> <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device?		esNo			
21. Initial Tests:  a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU?	<ul><li>☐ Ye</li><li>☐ Ye</li><li>☐ Ye</li><li>☐ Ye</li></ul>	esNo esNo			

#### <u>1 -Relocatable Non Metallic Mineral Mining Facility</u>

### **Facility Section (continued)**

REASONABLE PRECAUTIONS FOR UNCONFINED EMISSIONS	(check <b>☑</b> box for each	only one question)		
1. Does the owner/operator of the NMMP Plant take reasonable precautions to control unconfined				
emissions by: a) Use of water suppression system(s) with spray bars located wherever unconfined emissions occur				
(at the feeder(s), the entrance and exit of the crusher(s), the classifier screens, and the conveyor drop points)? N/A	☐ Yes	☐ No		
If no, where are unconfined emissions occurring?				
b) Use of water trucks equipped with spray bars to apply water or effective dust suppressant(s) on a regular basis (to all stockpiles, roadways and work yards)? N/A c) Paving and maintaining roads and parking areas? N/A d) Removal of particulate matter from roads and other paved areas under control	☐ Yes ☐ Yes	☐ No ☐ No		
of the owner/operator to prevent re-entrainment, and from building or work areas to reduce airborne particulate matter? N/A	☐ Yes	☐ No		
e) Reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of particulate matter from stock piles? N/A	☐ Yes	☐ No		
2. If reasonable precautions <u>not</u> being taken:  a) Did the inspector perform a general VE test (20% opacity)? N/A  b) If tested: ()% opacity. Were the visible emissions < 20% opacity?  c) What caused the problem(s) (if known)?	Yes Yes	□ No □No		
CONFIRMATION OF GENERAL PERMIT ELIGIBILITY	(check 🗹 box for each o	only one		
1. Does this facility keep records to show that it does not have the potential to emit:  a) 10 tons per year or more of any hazardous air pollutant?		_		
b) 25 tons per year or more of any combination of hazardous air pollutants? c) 100 tons per year or more of any other regulated air pollutant?	- Yes	□No □No □No		
<ul><li>2. Does this facility include:</li><li>a) any emission units or activities not covered by the applicable air general permit (with the exception of</li></ul>				
units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) of Rule 62-4.040, F.A.C.)?	r Yes	□No		
If YES, what non-exempt units or activities?				
b) any emissions units or activities authorized by another air general permit where such other air gene permit and this general permit specifically allow the use of one another at the same facility?		□No		
If YES, what other general permit units or activities?				

( ) gal diesel/yr + ( ) gal gasoline/yr + ( ) MM SCF nat. gas/yr + ( ) MM gal propared 275,000 gal diesel/yr 23,000 gal gasoline/yr 44 MM SCF nat. gas/yr 1.3 MM gal propared 4. Has the owner/operator maintained, available for inspection, site-wide records of monthly fuel consum for each consecutive 12-period for the past 5 years?	e/yr nption	□No □No )?
GENERAL CONDITIONS  1. Has the owner or operator allowed the circumvention of any air pollution control device, or Allowed the emission of air pollutants without the proper operation of all applicable air	(check 🗹 box for each	only one question)
pollution control devices?  2. Does the owner or operator:	<del></del>	□No
a) maintain the authorized facility in good condition?      b) ensure that the facility maintains its eligibility to use the air general permit and complies with all terms and conditions of the air general permit?		□No □No
3. Has the owner or operator allowed you, as the duly authorized representative of the Department, access to the facility at reasonable times to inspect and test and to determine compliance with the air general permit and Department rules?	ss	□No
RELOCATABLE PLANT  1. The facility: ☐ is stationary; ☐ is relocatable; or ☐ consists of both stationary and relocatable NMMP and/or concrete batching plants. (If only stationary, skip the following questions 2 and 3.)	(check 🗹 box for each	only one question)
<ul> <li>2. For a relocated NMMP plant:</li> <li>a) did the owner or operator notify the appropriate Department or Local Air Program by telephone,</li> <li>e-mail, fax, or written communication at least one business day prior to changing location?</li> <li>b) did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900(to the Department or Local Air Program no later than five business days following relocation?</li> </ul>	6)]	□No
3. If the relocatable NMMP plant was co-located at a facility with a separate air construction or air operator permit, and the relocatable NMMP plant is not included as an emissions unit in that separate permit:  a) was the relocatable NMMP plant being used for a non-routine purpose?	- Yes	□No □No □No

Administrative Changes:  1. Were there any changes in the name, address, or phone rassociated with a change in ownership or with a physical operations comprising the facility; or any other similar name of the physical operations.  2. If YES, did the facility provide written notification with	l relocation of the facility or any emissions units or ninor administrative change at the facility? Yes	only one a question)			
New or Modified Process Equipment or Change in Ownership:  3. Since the last registration form submittal has there been  a) Installation of any new process equipment?					
FRANK DELGADO	8/30/2011				
Inspector's Name (Please Print)	Date of Inspection  8/2012				
Inspector's Signature	Approximate Date of Next Inspection				

**COMMENTS:** DUE TO CURRENT MARKET CONDITIONS THE CRUSHER WILL NOT BE OPERATING FOR THE REST OF 2011. A VISIBLE EMISSIONS TEST WAS CONDUCTED LAST YEAR ON JUNE 2, 2010. THE CRUSHER IS LOCATED AT THE FEC QUARRY.

**REVIEWED**
