COMMENTS: I (Chris Haines) and Mr. Joe Panetta arrived at the facility at approximately 2:00PM and met with Mr. Denis Boone, the main cremation unit operator. Mr. Boone took us to the back of the facility behind the kennels to where the cremation unit was located. There he had boxes with the temperature logs with markings of operator, date, time started and pounds cremated for the past 2 years (I reviewed 9-5-09 to 9-8-11). After some searching I was also able to locate his MSDS sheets detailing the chlorinated plastic bags used to load animals into the cremation unit, a maintenance schedule and log of maintenance performed on the unit, and a copy of the permit along with other necessary paperwork. I left Mr. Boone a list of things I will be needing to inspect the next time I come to his facility so that they may be located more quickly. Mr. Panetta and I concluded out meeting with Mr. Boone at approximately 3:15PM.
