COMMENTS: On November 30, 2009 I visited this facility to conduct an annual compliance inspection. On site I met Mr.Alex Lopez, the manager of the facility. According to Mr.Lopez, the dry cleaning machine has not been used since March, 2009. And, 90% of the work is done as wet cleaning and the remaining 10% is basically drop-off. However, they are planning to replace the perc dry cleaning machine with the hydrocarbon operated dry cleaning machine. No leaks were detected in the dry cleaning machine.
