COMMENTS:					
This inspection was generated by a 15 day VE notification received by the Department for another facility which is located on the same site and is a Concrete Block Plant (no registration permit exist for this facility).					
The original facility is permitted as a relocatable concrete batch plant (it appears to be a permanent facility).					
This original permit facility 7775190-001-AG in the process of be	ecoming -002-AG				
It was decided by mangers in Air Quality Section that it will be accepted by mangers in Air Quality Section that it will be accepted by the section of the s
