**COMMENTS:** On December 17, 2010 I visited this facility to conduct the annual compliance inspection. On site I met Mr. Jesus Santovenia, the owner of the facility. This facility did not manufacture any boat. They are basically doing repair works on Boats. This facility used approximately 200 gallons of resin and about 30 gallons of gelcoat in the year 2010. An FNOV was issued for the DERM expired Air Pollution Annual operating permit.
