COMMENTS: Inspector, Ilka Bundy, met with Luis Llorens of AI Environmental Consulting Services, Janene Rhodes, R.O., and Stephen Sidelinger, Crematory Repair Specialist, on June 7, 2013, to audit the compliance test on three human cremation units (EUs 001, 002, and 004) and one animal cremation unit (EU003). Mr. Sidelinger was onsite to ensure the units were operating properly. Mr. Sidelinger stated he just performed the annual maintenance on the units on 6/6/2013. EU001 is a Model C1000H human cremation unit. This unit was charged with a 130 lb female body. The observed opacity for this unit was zero percent. The unit's digital temperature read-out for this cremation was reading 1667° F. The strip chart temperature reading was observed to be 1668° F. This unit appears to be operating properly. The facility did submit a new notification on 12/17/2012 to add a third human cremation unit, which is now EU 004.
