**COMMENTS:** PT witnessed the 2009 VE test of plant #1 by Arlington Environmental. No emissions were seen during the filling of the silos or the loading of the truck. No violations were noted for this plant. However, the newest GP has Plant #1 and Plant #2 listed but plant #2 does not appear to be operational. Management staff said Plant #2 was "a giant paperweight". PT called the facility to request a letter stating #2 was inactive to be sent to the Department.
