**COMMENTS:** On July 12, 2010 I visited this facility to conduct the annual compliance inspection. On site I met Mr.Norman Collins, the owner of the facility. This facility manufactured one boat last year. According to Mr. Collins, he occasionally does minor repair works on boats. The combined gelcoat and resin usage from June, 2009 to May, 2010 was approximately 3200 pounds. Housekeeping was good during the time of my inspection .
