PART VI: Comments

<u>O&M Plan</u>

The pollution control equipment shall be operated and maintained in accordance to the operation and maintenance (O&M) plan. The O&M plan shall include, but is not limited to:

- (1) Operating parameters of the pollution control device;
- (2) Time table for the routine maintenance of the pollution control device as specified by the manufacturer;
- (3) Time table for routine periodic observations of the pollution control device sufficient to ensure proper operation;
- (4) A list of the type and quantity of the required spare parts for the pollution control device which are stored on the premises of the permit applicant;
- (5) A record log which will indicate, at a minimum:
 - a. When maintenance and observations were performed;
 - b. What maintenance and observations were performed; and
 - c. Who performed said maintenance and observations.
 - d. Acceptable parameter ranges for each operational check.

[Pinellas County Code, Subsection 58-128]

Comments: Reviewed records for the months of 9/1/13 through 7/23/14. See attached O&M log sheets.

The emission unit was not in operation (No pneumatic loading of silo at the time). Mr. Miller stated their business has been slowly

picked up. I told Mr. Miller to let me known when they plan to pneumatic loading the silo.

Exit Interview: During the closing conference, I told Mr. Miller, the emission unit is deemed to be incompliance.
