COMMENTS: Inpection found several open containers of solvent buckets with tools soaking in them. It appeared that the buckets contained acetone. Rule 62-210.310(3)(f), Florida Administrative Code (F.A.C.), of the General Conditions of the facility's permit, states, the owner or operator shall not circumvent any air pollution control device or allow the emission of air pollutants without the proper operation of all applicable air pollution control devices. Please ensure that all solvent containers are closed when not in use or not open to the outside air to prevent emission of air pollutants and any associated odors. The total resin and gelcoat usage for the last 12 consecutive months was 2,430 lbs.
