Approximate Date of Next Inspection

COMMENTS: On July 13, 2010 I visited this facility to conduct the annual compliance inspection. On site I met Mr.Ernesto Martinez, the Purchasing Director of the facility. The fiberglass lamination area has three wall exhaust fans with filters. In addition, the sanding area has two wall exhaust fans with filters. This facility manufactured thirty (30) Boats from July, 2009 to June, 2010. The usage of resin was approximately 30, 000 pounds and gel-coat was approximately 13,000 pounds. The housekeeping was good.
