COMMENTS: Pre-Inspection Review: On January 25, 2012, Mr. Bill Pagano of Prestige sent a General Permit surrender letter for this facility. The purpose of this inspection it to verify that the facility is not operating. This facility has been in shutdown since 03/27/2009. Inspection Findings: Upon my arrival at this location, the gate was closed and chained. It appears this location has been shut down for a while. The driveways are overgrown with vegetation and the one cement truck on site also had weeds grown up around it. Photos were taken during my site visit and are attached to this report.
