(Rurbelow the requirements of 100 rly average basis and tested acceptable of the day of the day of a tested according to 7% O <sub>2</sub> and tested according are operating at the manufacturemission of a test report for an ion to the date of the last formal	Method 9 (Ref.: Chapter dissions test conducted 60 of each anniversary date? deach anniversary date. d	

PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-296.401, F.A.C. (check ☑ appropriate box(es))		
1. Is there <b>Continuous Emissions Monitoring System</b> (CEMS) equipment installed on each unit to record temperimary and secondary chambers where there is a 1.0 second gas residence time in the secondary chamber combinated with the manufacturer's instructions?	peratures in t ustion zone i Yes \(\sime\) No	n
<ul><li>a) Do temperature probes seem to be properly placed?</li><li>b) Are the following records kept on file, available for inspection for at least two years following the record measurements, maintenance, reports and records?</li></ul>	Yes 🔲 No	)
1) All measurements (including CEMS)	Yes	) ) ) )
b) ON or AFTER August 30, 1989? (If this box checked, skip #3 and continue on to #4)  3. If constructed BEFORE August 30, 1989 is the:		
<ul> <li>a) secondary chamber combustion zone providing at least a 1.0 second gas residence time @ 1600°F?</li> <li>b) actual operating temperature of the secondary chamber combustion zone no less than 1400°F</li> </ul>	Yes No	
is equal to or greater than <b>1400°F</b> ? d) required monitoring equipment installed and operational, and providing continuous monitoring to record the temperature at the point or beyond where 1.0 second gas residence time is obtained in the	]Yes	
<ul> <li>4. If constructed <u>ON</u> or <u>AFTER</u> August 30, 1989 is the:</li> <li>a) volume in the secondary combustion zone sufficient to provide at least a 1.0 second gas residence time</li> </ul>	]Yes □ No	
c) secondary chamber combustion zone temperature equal to or greater than 1600°F before the cremation	]Yes □ No	
5. Are appropriate cremation containers containing no more than 0.5 % (percent) by weight chlorinated plastics used during the cremation of dead human bodies?	Yes No	
b) Are there any other materials, including biomedical wastes (Rule 62-210.200, FAC) incinerated at this location?	Yes  No	)
a) Are copies of the training certificates for all crematory operators kept on file at the facility for the duration	]Yes	

	<u>EDURES</u> – Rule 62-296.401, F.A.C.
<ul> <li>b) alterations to existing process equipmen</li> <li>c) replacement of existing equipment substrecent notification form?</li> <li>d) If you answered <u>YES</u> to any of the above notification form and appropriate fee (R local program office?</li> <li>2. If a crematory unit has been modified to the example was required, have all operators been retrained.</li> <li>3. In the case of new or modified equipment, where required, has the owner submitted copies of an example.</li> </ul>	ed to operate the modified unit? Yes No
