COMMENTS: Inspector Norma Ali met with Bill Arlington, consultant, and Sig Bo, Environmental Manager of Cemex, to conduct the audit of the visual emission compliance test for the weigh hopper and truck load. Two truck load out were witnessed. The opacity observed was Zero percent on each of the emission units.

According to Sig Bo, due to slow business, they are not filling the silos, at least for now. They will schedule a VE next time they do a load up for the two silos. The company may shut down this plant, and move the trucks to another plant until business improves.

Yard roads are paved and they were partially wet, sprinklers for the raw materials were on.

Facility appeared to be in compliance at the time of inspection.
