|   |                                 |                                       |                                      |  |  |
| PART II: <u>TESTING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.414, F.A.C. (check ☑ appropriate box(es))  |                                 |                                       |                                      |  |  |
| Stack Emissions   |                                 |                                       |                                      |  |  |
|   |                                 | this site visit according to EPA Me   | thod 9 (Ref.: Chapter \ \ Yes \ \ No |  |  |
| 2. Are emissions fro  | m silos, weigh hoppers (batch   | hers), and other enclosed storage ar  | nd conveying equipment               |  |  |
| controlled to the extent necessary to limit visible emissions to 5 percent opacity?   No  3. During visible emissions tests of the silo dust collector exhaust points was the loading of the silo conducted       |                                 |                                       |                                      |  |  |
| at a rate that is representative of the normal silo loading rate, or at least at the minimum 25 tons per hour rate, unless such rate is unachievable in practice?   |                                 |                                       |                                      |  |  |
| 4. Are emissions from the weigh hopper (batcher) operation controlled by the silo dust collector? (If answer to this question is "Yes", then continue on to questions 4.a) and 4.b) below. If answer is "No" then |                                 |                                       |                                      |  |  |
|   |                                 |                                       |                                      |  |  |
| b) During the visi  | ible emissions test, was the ba | atching rate representative of the no |                                      |  |  |
| 5. If emissions from  | the weigh hopper (batcher) o    | peration are controlled by a dust co  | ollector, which is separate          |  |  |
| from the silo dust collector, are the visible emissions tests of the weigh hopper (batcher) dust collector conducted while batching at a rate that is representative of the normal batching rate and duration?    |                                 |                                       |                                      |  |  |
|   |                                 |                                       |                                      |  |  |
|   |                                 |                                       |                                      |  |  |

| PART II: <u>TESTING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.414, F.A.C. – (continued) (check ☑ appropriate box(es)  |                               |
|--|-------------------------------|
| Compliance Demonstration - (Rule 62-296.401(5)(i), F.A.C.)  1. Is each dust collector exhaust point tested according to the visible emissions limiting standard as part of t annual compliance demonstration? (Rule 62-297.310(7)(a), F.A.C.)  |                               |
| New Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)  2. Did this facility demonstrate:  a) initial compliance no later than 30 days after beginning operation?  b) annual compliance within 60 days prior to each anniversary of the air general permit notification form submittal date?   | ☐Yes ☐ No                     |
| Existing Facilities – (permitted pursuant to Rule 62-210.300(4), F.A.C., Air General Permits)  3. In order to demonstrate annual compliance, was an annual visible emissions test conducted 60days prior the AGP Notification form submission, and within 60 days prior to each anniversary date?  |                               |
| Test Reports – (Rules 62-213.440, F.A.C. and 62-297.310(8)(b), F.A.C.)  4. Was the required test report filed with the department as soon as practical, but no later than 45 days after test was completed?  |                               |
|  |                               |
|  |                               |
| PART III: OPERATING/RECORDKEEPING REQUIREMENTS – Rule 62-210.300(4)(c)2., F.A.C. (check ☑ appropriate box(es))   |                               |
