COMMENTS: Mr. Joe Panetta and I (Chris Haines) arrived at the facility and met with Mr. Mark Downing. I introduced myself, stated that we were here to perform a routine inspection and exchanged cards with Mr. Downing. He took us to the back where the cremation unit was housed and showed us the required paperwork, all of which was kept in binders and folders in good order. After my review of his records I asked about the MSDS sheets for the types of bags he uses. He informed me that most of the time he removes the bags, but he has an MSDS sheet for the types of body bags that may make it into the cremation unit. We concluded our meeting with Mr. Downing in a timely fashion so that he may return to his business.
