COMMENTS: In a compliance inspection conducted on 5/24/2012, AQD staff (E.Susky) observed operations at Fiberbuilt Umbrellas. The facility manufactures umbrellas stands and sells various patio and boat furnishings. Mr. Paul Knapp accompanied staff on the inspection. The polyester/resin usage will be submitted to the department. The facility has one spray booth where they apply the polyester resin into small molds for the umbrella stands. Houskeeping was fair, but could use some improvement.
