|------------|---|---|------------------------------|
| 1. | Does the owner/operator of the NMMP Plant take reasonable precautions to control unconfined emissions by: a) Use of water suppression system(s) with spray bars located wherever unconfined emissions occur (at the feeder(s), the entrance and exit of the crusher(s), the classifier screens, and the conveyor drop points)? N/A If no, where are unconfined emissions occurring? | TYes | 🗌 No |
| | b) Use of water trucks equipped with spray bars to apply water or effective dust suppressant(s) on a regular basis (to all stockpiles, roadways and work yards)? N/A c) Paving and maintaining roads and parking areas? N/A d) Removal of particulate matter from roads and other paved areas under control of the owner/operator to prevent re-entrainment, and from building or work areas to reduce airborne particulate matter? N/A e) Reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of particulate matter from stock piles? N/A | ☐ Yes☐ Yes☐ Yes☐ Yes | □ No □ No □ No □ No |
| 2. | If reasonable precautions <u>not</u> being taken: a) Did the inspector perform a general VE test (20% opacity)? N/A b) If tested: ()% opacity. Were the visible emissions < 20% opacity? c) What caused the problem(s) (if known)? | ☐ Yes ☐ Yes | □ No □No |

CONFIRMATION OF GENERAL PERMIT ELIGIBILITY (check \square only one box for each question) 1. Does this facility keep records to show that it does not have the potential to emit: a) 10 tons per year or more of any hazardous air pollutant? ------ Yes ...No ...No c) 100 tons per year or more of any other regulated air pollutant? ------ Xes ...No 2. Does this facility include: a) any emission units or activities not covered by the applicable air general permit (with the exception of units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) or Rule 62-4.040, F.A.C.)? ------ Yes X..No If YES, what non-exempt units or activities? b) any emissions units or activities authorized by another air general permit where such other air general permit and this general permit specifically allow the use of one another at the same facility? ----- X Yes ...No If YES, what other general permit units or activities? 7775333, 7774820, 1190049

COMMENTS: This aggregate processing plant runs on electricity, so it does not contribute to site wide fuel use. A VE test was conducted today on 5 points. I conducted a concurrent VE test on Emission Point 6. I observed 5% opacity on two occasions, and the highest average 6-min opacity was .2%. I did not observe any emissions from any other Emission Point. On site conducting the VE test were James and Ryan of Koogler & Associates. Prior to observing the test, I spoke with Glenna in the office. She explained that the company was in the process of replacing Woody Sanderson as the facility AR. He is still working there now, but he was let go and is only working through the end of the month.
