COMMENTS: In a compliance inspection on 12/1/06, AQD staff observed operations at One Low Price Cleaners. The facility has a new owner and is newly permitted. Mr. Joe Lucas accompanied staff on the inspection. Mr. Lucas had obtained a leak detector, however it was not for PERC. At this time Mr. Lucas has a machine that was installed before 2005 so he is not mandatory that he use a PERC leak detector. However, he plans to utilize one in the future.

Houskeeping was good. AQD staff did suggest to store drums further away from the back door and to utilize individual drum container for spillage. The facility is using the DEP calendar for leak checks.

No AQ violations at the time of the inspection.
