**COMMENTS:** On May 16, 2013 I visited this facility to conduct the compliance inspection and to witness the visible emissions test. On site I met Julio Fundora, the Batch Plant Operator. According to Michelle De La Milera, Comptroller, the visible emissions test was cancelled because the silo was not full for testing. The concrete production is approximately 100 yards per month. Facility is manufacturing Ready-Mix for in-house use only. The loading trucks are no longer leaving the premises for outside sale. The sprinkler system is used as needed for rock maintenance.
