**COMMENTS:** Ms. Wanda Parker-Garvin made contact with Mr. Bruce Shubert, Quality Control Manager and Mr. Anthony Allen, Plant Manager . Mr. Allen accompanied Ms. Parker-Garvin on a walk-through of the facility. The plant was not in operation at the time of inspection. Mr. Allen stated the water truck was used 2-3 times a day on site to control dust and there were

not major maintenance activities at the facility during the past year. Mr. Allen also stated the facility there was one 13 HP emergency generator on site. Ms. Parker-Garvin did not observe any unconfined emissions.
