COMMENTS: OCEPD personnel arrived at the site at approximately 11:45 AM, and were met by the Plant Foreman, Mr. Louis Bazan. The Plant Manager, Mr. Rick Higgins, was not present at the time of the VE test. It should be noted that the 15-day notice was waived by Ilka Bundy, Team Leader. The consultant, Dan Beatty, representing Beatty Environmental Services, LLC, arrived at approximately 12:00 PM. Prior to arrival by OCEPD personnel, the cement truck had already arrived on-site and was hooked up. According to Mr. Bazan, the socks in the baghouse had been changed approximately 3-months ago. The baghouse on the cement silo, EU-001, was observed. A 30-minute VE was audited, and the observed opacity was zero percent The loading rate for the cement silo was 34.98 TPH, which is acceptable. No unconfined or uncontrolled emissions were observed leaving the property.
