BY ELECTRONIC MAIL Kevin.Farris@carriageservices.com

Mr. Kevin Farris Carriage Services dba McLaughlin Mortuary 17 Chestnut Avenue Southeast Fort Walton Beach, Florida 32548

Dear Mr. Farris:

On November 4, 2009, a Department representative with the Air Resource Management Program inspected your facility, ID 0910096. A copy of the inspection report is enclosed.

The inspection and a review of Department records indicate the facility was in minor non-compliance at the time of the inspection for not having certifying documentation from the manufacturer that the body bags burned in the crematory contain no more than 0.5% (percent) by weight chlorinated plastics, as provided by Rule 62-296.401, Florida Administrative Code.

Please notify this office within 15 days of receipt of this letter as to what steps you have taken to correct the deficiency listed in the report.

This letter applies only to activities covered by the Air Resource Management Program. If you have any questions, please contact Carol Melton at 850/595-8300, extension 1228 or carol.melton@dep.state.fl.us.

Sincerely,

Einen Mitchell

Erica Mitchell Air Compliance Supervisor

# PART III: <u>OPERATING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.401, F.A.C. (check ☑ appropriate box(es))

1. Is there Continuous Emissions Monitoring System (CEMS) equipment installed on each unit to record			
primary and secondary chambers where there is a 1.0 second gas residence time in the secondary chamber co			
accordance with the manufacturer's instructions?			
a) Do temperature probes seem to be properly placed?			
b) Are the following records kept on file, available for inspection for at least two years following the re	cording of such		
measurements, maintenance, reports and records?			
1) All measurements (including CEMS)	⊠Yes ∐ No		
2) Monitoring device	Yes 🗌 No		
3) Performance Testing Measurements	Yes 🗌 No		
4) CEMS Performance Evaluation	Yes 🗌 No		
5) All CEMS or monitoring device calibration checks	Yes 🗌 No		
6) Adjustments	Yes 🗌 No		
7) Preventive maintenance performed on systems/devices	Yes 🗌 No		
8) Corrective maintenance performed on systems/devices	🛛 Yes 🗌 No		
2. Was this crematory unit constructed: (check only one 🗹 box)			
a) BEFORE August 30, 1989? (If this box checked, continue on to #3 and skip #4)			
b) ON or AFTER August 30, 1989? (If this box checked, skip #3 and continue on to #4)			
3. If constructed <b>BEFORE</b> August 30, 1989 is the:			
a) secondary chamber combustion zone providing at least a 1.0 second gas residence time @ 1600°F?	Yes No		
b) actual operating temperature of the secondary chamber combustion zone no less than <b>1400°F</b>			
throughout the combustion process in the primary chamber?	Yes No		
c) cremation in the primary chamber begun after the secondary chamber combustion zone temperature			
is equal to or greater than <b>1400°F</b> ?	Yes No		
d) required monitoring equipment installed and operational, and providing continuous monitoring to			
record the temperature at the point or beyond where 1.0 second gas residence time is obtained in the			
secondary chamber combustion zone according to the manufacturer's instructions?	Yes No		
4. If constructed <b>ON</b> or <b>AFTER</b> August 30, 1989 is the:			
a) volume in the secondary combustion zone sufficient to provide at least a 1.0 second gas residence time	ne		
@ 1800° F?	🛛 Yes 🗌 No		
b) the actual operating temperature of the secondary chamber combustion zone no less than $1600^{\circ}F$			
throughout the combustion process in the primary chamber?	🛛 Yes 🗌 No		
c) secondary chamber combustion zone temperature equal to or greater than 1600°F before the crematic			
process begins in the primary chamber?	🛛 Yes 🗌 No		
5. Are appropriate cremation containers containing no more than 0.5 % (percent) by weight chlorinated			
plastics used during the cremation of dead human bodies?	🗌 Yes 🗌 No		
a) If the answer to question 4 above is YES, is certifying documentation from the manufacturer that the	у		
are composed of 0.5% or less by weight chlorinated plastics kept on file at the site for the duration of			
their use and for at least two years after their use?	🗌 Yes 🖾 No		
b) Are there any other materials, including biomedical wastes (Rule 62-210.200, FAC) incinerated at			
this location?	🗌 Yes 🖾 No		
6. Have all crematory operators been trained and certified by a Department-approved training program?	🛛 Yes 🗌 No		
a) Are copies of the training certificates for all crematory operators kept on file at the facility for the duration			
of the operator's employment & for an additional two years after termination of employment?	🛛 Yes 🗌 No		

#### PART IV: SPECIAL CONDITIONS AND PROCEDURES - Rule 62-296.401, F.A.C. A. New or Modified Process Equipment

1. Since the last inspection has there been		
a) installation of any new process equipment?	Yes	No
b) alterations to existing process equipment without replacement?	Yes	No
c) replacement of existing equipment substantially different than that noted on the most	_	
recent notification form?	<u>Yes</u>	⊠No
d) If you answered <u>YES</u> to any of the above, did the owner submit a new and complete notification form and appropriate fee (Rule 62-4.050, F.A.C.) to the appropriate DEP or		
local program office?	Yes	No
2. If a crematory unit has been modified to the extent that a Department air construction permit		
was required, have all operators been retrained to operate the modified unit?	Yes	No
3. In the case of new or modified equipment, where a Department air construction permit was		
required, has the owner submitted copies of all operator training certificates?	Yes	No
a) submitted within the 15 day required window following the training?	Yes	No

COMMENTS: During the inspection, the crematory was operating and a "direct cremation" body was received. The operator explained that "direct cremation" bodies arrive in a bag. They further explained that the bag is not removed from the body prior to placing the body in the cremation box for cremation. They indicated that they did not know the amount of chlorinated plastics in the bag and did not have any manufacturer's information on file. They did have the appropriate information on file concerning the cremation boxes. I explained that Rule 62-296.401, Florida Administrative Code, requires cremation containers to contain no more than 0.5% (percent) by weight chlorinated plastics and certifying documentation from the manufacturer must bekept on file at the site They indicated they would try to obtain the documentation for the plastic bags from the hospital.

Please notify this office within 15 days of receipt of this letter as to what steps you have taken to ensure that cremation containers contain no more than 0.5% by weight chlorinated plastics and to obtain certifying documentation of chlorinated plastic content.
