<u>Unconfined Emissions</u> – (Rule 62-296.320(4)(c), F.A.C.)	taka raasanahla praaautians to control unaanfinad						
1. Does the owner /operator of the concrete batching plant take reasonable precautions to control unconfined emissions by:							
a) management of roads, parking areas, stock piles, an	d vards, which shall include one or more of the fol	lowing.					
1) paving and maintenance of roads, parking areas,							
2) application of water or environmentally safe dus							
emissions?	☐Yes ☐ No						
<ol><li>removal of particulate matter from roads and oth</li></ol>							
re-entrainment, and from building or work areas to reduce airborne particulate matter?							
4) reduction of stock pile height, or installation of							
b) use of spray bar, chute, or partial enclosure to mitig	ate emissions at the drop point to the truck?	∐Yes ∐ No					
PART IV: SPECIAL CONDITIONS AND PROCEDURES	- Rule 62-210.300(4)(d)4., F.A.C.						
A. New or Modified Process Equipment							
1.6: 4.1.7: 2.1.4.1							
1. Since the last inspection has there been		□v □ v.					
a) installation of any new process equipment?							
b) alterations to existing process equipment without replacement? c) replacement of existing equipment substantially different than that noted on the most							
recent notification form?	□Yes □ No						
d) If you answered <b>YES</b> to any of the above, did the owner submit a new and complete							
notification form and appropriate fee (Rule 62-4.050, FAC) to the appropriate DEP or							
local program office?		□Yes □ No

COMMENTS: Drive by inspection I observed the general loc	ation as described by Pyon Regwall on the prayion	ng 3/13/2007 gita					

**COMMENTS:** Drive by inspection. I observed the general location as described by Ryan Bagwell on the previous 3/13/2007 site evaluation. There did not appear to be any sign of the plant or any construction in progress.
