RT III: <u>OPERATING/RECORDKEEPING REQUIREMENTS</u> – Rule 62-296.401, F.A.C. (check ☑ appropriate box(es))		
1. Is there Continuous Emissions Monitoring System (CEMS) equipment installed on each unit to record	temperati	ares in t
primary and secondary chambers where there is a 1.0 second gas residence time in the secondary chamber c		
accordance with the manufacturer's instructions?		
a) Do temperature probes seem to be properly placed?	- Tyes	□N
b) Are the following records kept on file, available for inspection for at least two years following the re	cording o	of such
measurements, maintenance, reports and records?	Č	
1) All measurements (including CEMS)	- Yes	\prod N
2) Monitoring device	Yes	\square N
3) Performance Testing Measurements	Yes	\square N
4) CEMS Performance Evaluation	Yes	□ N
5) All CEMS or monitoring device calibration checks	Yes	□ N
6) Adjustments	Yes	□ N
7) Preventive maintenance performed on systems/devices		□ N
8) Corrective maintenance performed on systems/devices	Yes	□ N
2. Was this crematory unit constructed: (check only one ☑ box)		
a) BEFORE August 30, 1989? (If this box checked, continue on to #3 and skip #4)		
b) ON or AFTER August 30, 1989? (If this box checked, skip #3 and continue on to #4)		
3. If constructed BEFORE August 30, 1989 is the:		
a) secondary chamber combustion zone providing at least a 1.0 second gas residence time @ 1600°F?	Yes	
b) actual operating temperature of the secondary chamber combustion zone no less than 1400°F		
throughout the combustion process in the primary chamber?	· Yes	
c) cremation in the primary chamber begun after the secondary chamber combustion zone temperature		
is equal to or greater than $1400^{\circ}F$?	- Yes	
d) required monitoring equipment installed and operational, and providing continuous monitoring to		
record the temperature at the point or beyond where 1.0 second gas residence time is obtained in the		
secondary chamber combustion zone according to the manufacturer's instructions?	- LYes	∐ N
4. If constructed ON or AFTER August 30, 1989 is the:		
a) volume in the secondary combustion zone sufficient to provide at least a 1.0 second gas residence ti		
@ 1800° F?	- LYes	∐ N
b) the actual operating temperature of the secondary chamber combustion zone no less than 1600°F		
throughout the combustion process in the primary chamber?	∐Yes	N
c) secondary chamber combustion zone temperature equal to or greater than 1600°F before the cremati		_
process begins in the primary chamber?	Yes	∐ N
5. Are appropriate leak-proof containers containing no more than 0.5 % (percent) by weight chlorinated	_	
plastics used during the cremation of dead animals?	∐Yes	∐ N
a) If the answer to question 4 above is YES, is certifying documentation from the manufacturer that the		
are composed of 0.5% or less by weight chlorinated plastics kept on file at the site for the duration of		
their use and for at least two years after their use?	□Yes	∐ N
b) If plastic bags are used for the cremation of animals are they non-chlorinated and no less than 3 miles		
thick?	∐Yes	∐ N
c) Are dead animals, which have been used for medical or commercial experimentation, or other		
materials, including biomedical wastes (Rule 62-210.200, F.A.C.), incinerated at this location?	□Yes	
6. During this review period, was the largest batch load cremated 500 pounds per hour or less?	Yes	
7. Have all crematory operators been trained and certified by a Department-approved training program?	Yes	∐ N
a) Are copies of the training certificates all crematory operators kept on file at the facility for the durat		
of the operator's employment & for an additional two years after termination of employment?	□Yes	

PART IV: <u>SPECIAL CONDITIONS AND PROCEDUR</u> A. New or Modified Process Equipment	<u>RES</u> – Rule 62-296.401, F.A.C.		
			ļ
 Since the last inspection has there been a) installation of any new process equipment? 		□Yes	□No
b) alterations to existing process equipment with		□Yes	
c) replacement of existing equipment substantial		L +-~	L-1.~
, 1		□Yes	□No
d) If you answered <u>YES</u> to any of the above, did			
notification form and appropriate fee (Rule 62	62-4.050, F.A.C.) to the appropriate DEP or		
local program office?		□Yes	□No
2. If a crematory unit has been modified to the extent	nt that a Department air construction permit		
was required, have all operators been retrained to	operate the modified unit?	□Yes	□No
3. In the case of new or modified equipment, where a		— <u>-</u>	
required, has the owner submitted copies of all op		□Yes	□No
a) submitted within the 15 day required window	following the training?	□Yes	□No

Inspector's Name (Please Print)	Date of Inspection		
	6-12 months		
Inspector's Signature	Approximate Date of Next Inspec	etion	
COMMENTS:			
I met with Godfrey Nurse, Farm Manager. He explained the	ov were still working on getting the crematory un	et dataile finali	and and
that the unit was not installed. He directed me to Dr. Eric Pe		il ucians manz	Zeu anu
I was directed to the same proposed site as my last inspectio	on, next to a water well tank in a pasture. The un	it was not at th	e site.
No compliance issues at this time.			
NOTE: The checklist is not complete because the unit has no	not been installed.
