		resentative(s): Charles P.				`		only one question)
2.	Is the Authorized Reprise If no, who is?:	resentative still WILLIAM	TAYI	LOR?		X Yes	<b>;</b>	□No
3.		cility provide an administra still ? <u>m Taylor</u>						□No □No
4.	Will facility be conduc	eting VE test(s) during tod ance authority notified at lo						□No □No

## **Emissions Unit Section 1-HUMAN CREMATORY**

D٨	ART I: FILE REVIEW PRIOR TO INSPECTION		1
IA	KI I; FILE REVIEW FRIOR TO INSI ECTION		only one
		box for each	question)
1	a. Complete AC application or, if no AC permit, initial GP registration received on or		_
1.	after August 30, 1989?	⊠ Yes	$\square$ No
			□No
	b. If yes, were design calculations provided then to confirm a sufficient volume in the		Į.
	secondary chamber combustion zone to provide for at least a 1.0 second gas residence time	<u> </u>	,
1_	at 1800 degrees Fahrenheit?	⊠ Yes	□No
	Crematory unit installed after February 1, 2007?	⊠ Yes	∐No
	Date of last inspection: 7/27/2011		
	Past Visible Emissions (VE) tests:		
	a. Was a VE test performed within each of the past 4 calendar years?	Yes	□No
	b. Has a VE test been performed yet within the current calendar year?	Yes Yes	⊠No
İ	c. If first year of operation, was a VE test performed within 30 days of commencing		
İ	operation? 🖂 N/A	☐ Yes	□No
İ	d. Date of last VE test: 7/27/2011	<del></del>	
	e. Was the VE test report filed with the compliance authority no later than 45 days after the test?	Yes	□No
	f. Did the facility demonstrate compliance during the last VE test?		□No
	If no, what was the problem (if known)?	<u></u>	
_	If no, what we are proceed (it moves).		
PA	ART II: <u>VISIBLE EMISSIONS TESTING</u>	(check 🗹	only one
		box for each	
		DON TOT CHELL	question,
1.	Was a visible emissions test conducted by the facility for this unit during this site visit?	- 🛛 Yes	□No
	a. Was the test conducted with the unit operating at a capacity of one adult-sized cadaver?		□No
	b. Was the visible emissions test conducted according to EPA Method 9?		□No
	c. The visible emission test resulted in an opacity of 0 % for the highest six minute average.		
	d. Did the visible emission test demonstrate compliance with the limit?	Yes	□No
	(5% opacity, six-minute average, except that visible emissions not exceeding 15% opacity shall be allowed for up to six minutes		
	(4.7 4 5 1 7 )	,	
2.	Was a visible emissions test conducted by the inspector during this site visit?	- Yes	⊠No
1	a. Was the test conducted with the unit operating at a capacity of one (1) adult-sized cadaver?		□No
ı	b. Was the visible emissions test conducted according to EPA Method 9?		□No
l	c. The visible emission test resulted in an opacity of % for the highest six minute average.		
	d. Did the visible emission test demonstrate compliance with the limit?	- Yes	□No
	Is there any reason to ask for a special test to determine compliance with the PM and CO standards.		□ <b>.</b> \\\\\
٥.	is there any reason to ask for a special test to determine comphance with the 11st and CO standa	Yes	□No
ı	If yes, what reason?	103	□1 <b>1</b> 0
ı	ii yes, what reason:		
_			
PA	ART III: MONITORING/RECORDKEEPING REQUIREMENTS	(check 🗹	only one
ı		box for each	•
1.	Were there any objectionable odors detected?	· Yes	⊠No
	An upwind/downwind survey of the facility was conducted. The observed parameters were:		
	Downwind odor level detected- No Wind direction - WNW Upwind odor level detected-No (	1-10)	
2.	Continuous Monitoring Systems –		
	Is a continuous temperature monitoring system installed on each unit to record temperatures in the		
ı	secondary chamber in accordance with the manufacturer's instructions?	Yes	□No
b	Is the temperature probe properly placed, at least at the distance where the 1.0 second gas residence	<del></del>	
	time at $\bowtie 1.800^1 \square 1.600^2$ degrees was determined?	⊠ Yes	□No
1	(Application or initial notification: <sup>1</sup> received on or after 8/30/89; <sup>2</sup> received before 8/30/89)	<u></u>	

c. Are the following records kept on file, available for inspection, for at least the past two years?  1) All temperature measurements			
1) All temperature measurements			
2) all continuous monitoring systems, monitoring devices, and performance testing measurements; monitoring system all continuous performance evaluations		~~	
monitoring system all continuous performance evaluations		⊠ Yes	∐No
3) All CEMS or monitoring device calibration checks (last performed on (1-18-2012)		⊠ Yes	ПNо
4) Adjustments	3) All CEMS or monitoring device calibration checks (last performed on (1-18-2012)		
5) Preventive maintenance performed on systems/devices		<b>⋈ 1</b> /-0	□ NT=
d. Are the temperature charts properly documented with operator name, operator indication of when cremation in the primary chamber was begun, date, time, and temperature markings		_	
d. Are the temperature charts properly documented with operator name, operator indication of when cremation in the primary chamber was begun, date, time, and temperature markings		=	
when cremation in the primary chamber was begun, date, time, and temperature markings		_	
(1) Is the crematory unit equipped and operated with a pollutant monitoring system to automatically control combustion based on continuous in-stack opacity measurement?	when cremation in the primary chamber was begun, date, time, and temperature markings		
control combustion based on continuous in-stack opacity measurement?			□No
(2) Is the system calibrated to restrict combustion in the primary chamber whenever any opacity exceeds 15% opacity?			$\sqcap$ No
exceeds 15% opacity?	(2) Is the system calibrated to restrict combustion in the primary chamber whenever any opacity	V 100	□10
PART IV: SECONDARY COMBUSTION ZONE TEMPERATURES  (check only one box for each question)  1. If the application to construct was BEFORE August 30, 1989 is the:  a. actual operating temperature of the secondary chamber combustion zone no less than 1400°F throughout the combustion process in the primary chamber? ————————————————————————————————————	exceeds 15% opacity?	⊠ Yes	□No
PART IV: SECONDARY COMBUSTION ZONE TEMPERATURES  (check ☑ only one box for each question)  1. If the application to construct was BEFORE August 30, 1989 is the:  a. actual operating temperature of the secondary chamber combustion zone no less than 1400°F throughout the combustion process in the primary chamber? ————————————————————————————————————		$\nabla V_{ec}$	$\sqcap$ N <sub>O</sub>
box for each question)  1. If the application to construct was <b>BEFORE</b> August 30, 1989 is the:  a. actual operating temperature of the secondary chamber combustion zone no less than <b>1400°F</b> throughout the combustion process in the primary chamber? ————————————————————————————————————	accordance with the manufacturer's recommended maintenance senegate:	<u> </u>	
box for each question)  1. If the application to construct was <b>BEFORE</b> August 30, 1989 is the:  a. actual operating temperature of the secondary chamber combustion zone no less than <b>1400°F</b> throughout the combustion process in the primary chamber? ————————————————————————————————————		(abaok 🗸	only one
1. If the application to construct was <u>BEFORE</u> August 30, 1989 is the:  a. actual operating temperature of the secondary chamber combustion zone no less than 1400°F  throughout the combustion process in the primary chamber? ————————————————————————————————————	PART IV: SECONDARY COMBUSTION ZONE TEMPERATURES	`	•
a. actual operating temperature of the secondary chamber combustion zone no less than 1400°F throughout the combustion process in the primary chamber?		JON 101	14001111,
throughout the combustion process in the primary chamber?			ļ
b. secondary chamber combustion zone temperature equal to or greater than 1400°F before the cremation process begins in the primary chamber? ————————————————————————————————————		□ <b>v</b>	□ NTo
process begins in the primary chamber?			∐N0
2. If the application to construct <u>ON</u> or <u>AFTER</u> August 30, 1989 is the:  a. the actual operating temperature of the secondary chamber combustion zone no less than 1600°F  throughout the combustion process in the primary chamber?   ∀es □No  b. secondary chamber combustion zone temperature equal to or greater than 1600°F before the cremation			□No
a. the actual operating temperature of the secondary chamber combustion zone no less than 1600°F throughout the combustion process in the primary chamber?			
throughout the combustion process in the primary chamber? YesNo b. secondary chamber combustion zone temperature equal to or greater than 1600°F before the cremation	a. the actual operating temperature of the secondary chamber combustion zone no less than 1600°F		
		_	□No
Indicase product in the diffusive chamber:			$\sqcap$ No
	process begins in the primary chamber.	M 100	□10
PART V: ALLOWED MATERIALS (check 🗹 only one		(check 🗹	only one
box for each question)	PART V: ALLOWED MATERIALS	,	
	PART V: <u>ALLOWED MATERIALS</u>	con for cucin ,	question)
			question
including bioincurcal wastes, incincrated in the unit:	1. Other than human or fetal remains with appropriate containers or clothing, are any materials,	_	_
2. Do cremation containers contain no more than 0.5 % (percent) by weight chlorinated		_	⊠No
plastics as certified by the manufacturer?	<ol> <li>Other than human or fetal remains with appropriate containers or clothing, are any materials, including biomedical wastes, incinerated in the unit?</li> <li>Do cremation containers contain no more than 0.5 % (percent) by weight chlorinated</li> </ol>	☐ Yes	⊠No

1. Is the crematory unit maintained in accordance with the manufacturer's specifications?
shutdown and malfunction?
Facility Section (continued)  SPECIAL CONDITIONS AND PROCEDURES  (check only one box for each question)  Administrative Changes:  1. Were there any changes in the name, address, or phone number of the facility or authorized representative not associated with a change in ownership or with a physical relocation of the facility or any emissions units or operations comprising the facility; or any other similar minor administrative change at the facility? YesNo  2. If yes, did the facility provide written notification within 30 days of the change? YesNo  New or Modified Process Equipment or Change in Ownership:  3. Since the last registration form submittal has there been YesNo
