INSPECTION FINDINGS			
<p>This inspection was generated by a 15 day VE test notification received by the Department for this facility. During the inspection it was found that this facility is operating with out a valid Concrete Batching Plant General Permit Registration Form.</p> <p>The owner of this facility has sent a registration form to Dick Dibble, this was verified by Joseph V. Panetta. This facility has been in operation since February 2007 without a valid Concrete Batching Plant General Permit Registration Form per Mr. Hindalong.</p> <p>Note: Located on property is a relocatable concrete batch plant 777519.002.AG Also the registration form for the <u>BLOCK PLANT</u> was received by Tallahassee 12/10/2007 and must have been inputted after the inspection date of 12/12/2007 because I talked with Dick Dibble on 12/11/2007 and it was still in Finance and Accounting. The Facility ID for Block Plant is now 0170371-001-AG.</p> <p>During the inspection two deficiencies were found:</p> <ol style="list-style-type: none"> 1) Constructing/operating with out a valid Concrete Batching Plant General Permit Registration Form 2) No VE test was performed within 30 days of commencing commercial operation
