COMMENTS: The annual inspection was performed on 9.23.10. Mike Fitzgerald is no longer with Waste Management. The walk-through inspection was performed with Steve Colby, District Manager, and Roger, who will be most involved with the inspection process from this point forward. The following observations were discussed and follow-up actions were requested. The filters in the spray booth were coated with paint and required changing. The spray logs did not include the amount of VOCs used. Spray logs included the amount of paint applied. Requested that the proper calculations be performed for reporting purposes. The district manager will send the requested information for the past 12 months via e-mail. Additionally, a template will be provided for referral.
