COMPLIANCE INSPECTION CHECKLIST

| INSPECTION TYPE: ANNUAL (INS1, INS2) ☐ COMPLAINT/DISCOVERY (CI) ☐ RE-INSPECTION (FUI) ☐ ARMS COMPLAINT NO: | | | | | | |
|---|--|--|--|--|--|--|
| AIRS ID#: 7775530 DATE: <u>11/18/2010</u> ARRIVE: <u>12:45 PM</u> DEPART | : <u>2:30 pm</u> | | | | | |
| FACILITY NAME: LEB D&C-RELOCATABLE CRUSHER-FT PIERCE | | | | | | |
| FACILITY LOCATION: 3214 Ave D. Ft Pierce | | | | | | |
| FT PIERCE 34947-1770 | | | | | | |
| Email: Mobile: (772)216-12 CONTACT NAME: LEE BECKFORD PHONE: (772)229-85 | OWNER/AUTHORIZED REPRESENTATIVE: RANDY BECKFORD Email: CONTACT NAME: LEE BECKFORD Email: ENTITLEMENT PERIOD: 9/1/2008 / 9/1/2013 PHONE: (772)229-8575 Mobile: (772)229-8575 Mobile: (772)216-1284 | | | | | |
| Facility Section PART I: INSPECTION COMPLIANCE STATUS (check ☑ only one box) | | | | | | |
| ☐ IN COMPLIANCE ☐ MINOR Non-COMPLIANCE ☐ SIGNIFICANT Non-COMP | PLIANCE | | | | | |
| PART II: ONSITE INTRODUCTORY MEETING | | | | | | |
| 1. Name(s) of facility representative(s): Mr. Beckford | (check ☑ only one box for each question) | | | | | |
| Brief Notes: 2. Is the Authorized Representative still RANDY BECKFORD? | - ⊠ Yes □No | | | | | |
| If different, did the facility provide an administrative update within 30 days? 3. Is the facility contact still LEE BECKFORD? If no, who is?: | | | | | | |
| 4. Will facility be conducting VE test(s) during today's inspection? | | | | | | |

Emissions Unit Section 2 –NMMP Plant-reloc crusher, diesel IC engine, 250 hp

| Sethe Emissions Unit (EU) subject to 40 CFR part 60 subpart OOO - Nonmetallic Mineral Processing Plants2 (Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majority is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granite. Trappock, Sandstone, Quarte, Quarzite, Mart, Marble, State, Shale, old Shale, and Shell: (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock Salt; (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Chloride, and Sodium Sulfare; (7) Pumice; (8) Gilomite; (9) Tade and Pyrophyllite; (10) Borns, including Borax, Kernite, and Colemantie; (11) Bartie; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermicultie; (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumoriterite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? | | | (check ☑ | only one |
|--|------|---|--|----------------------|
| Sthe Emissions Unit (EU) subject to 40 CFR part 60 subpart OOO - Nonmetallic Mineral Processing Plants? (Noise: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majority is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Gramite, Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock Sal; (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Chloride, and Sodium Sulfare; (7) Pumice; (8) Gilsonite; (9) Tale and Pyrophyllite; (10) Boron, including Borax, Kernite, and Colemanite; (11) Bruince; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Pertie; (16) Vermicultie; (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumortierite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? | | t | ox for each | question) |
| Note: "Nonmetallic minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Grantie, Traprock, Sandstone, Quartz, Quartzite, Mart, Marble, State, Shale, Oil Shale, and Shell; (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentionite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock Salt; (5) Grysum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Choride, and Sodium Sulfate; (7) Pumice; (8) Gilsonite; (9) Tale and Pyrophyllite; (10) Boron, including Borax, Kernite, and Colemantie; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15) Ferlite; (16) Vermiculite; (17) Mica; (18) Kyanite, including Andalustie, Sillimanite, Topaz, and Dumortierite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? Yes No 2. Is the EU located above ground (i.e., not in an underground mine)? Yes No 3. Was the EU constructed, modified, or reconstructed after August 31, 1983? Yes No 4. Is the EU one of the following? Yes No 5. Was the EU cone of the following? Yes No 6. Is the EU noted the following? Yes No 7. Is storage bin, enclosed truck loading station enclosed railcar loading station; enclosed truck loading station enclosed railcar loading station; enclosed truck loading station enclosed railcar loading station; enclosed for the subsequent emissions unit up to, but not including, the first storage silo or bin; series, and retaining oversize material through one or more mesh surfaces (screens) in series, and retaining oversize material on the mesh surfaces anywhere in the nonmetallic mineral processing plant are not considered to be screening operations. Subsequent emissions unit in the nonmetallic mineral processing plant are not considered to be screening operations. Subsequent emissions from one or more affected EUs.] If answer to any of the four Questions 1-4 above is "No" then the EU is not subject to subpart OOO so | Te : | | | 1 |
| or hot mix asphalt plant that has an aboveground crusher or grinding mill? | 15 | {Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majorit is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granit Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Chlo and Sodium Sulfate; (7) Pumice; (8) Gilsonite; (9) Talc and Pyrophyllite; (10) Boron, including Borax, and Colemanite; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermice | y e, Gravel; Salt; ride, Kernite, | |
| or hot mix asphalt plant that has an aboveground crusher or grinding mill? | 1. | Is the EU located at a fixed or portable nonmetallic mineral processing plant | | |
| 2. Is the EU located above ground (i.e., not in an underground mine)? — | -• | | ⊠ Yes | □No |
| 3. Was the EU constructed, modified, or reconstructed after August 31, 1983? | 2. | | | _ |
| crusher, | | | | □No |
| storage bin, | 4. | | ⊠ Yes | □No |
| □ crusher or grinding mill at hot mix asphalt plant that reduces the size of nonmetallic minerals embedded in recycled asphalt pavement or subsequent emissions unit up to, but not including, the first storage silo or bin; □ screening operation (a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series, and retaining oversize material on the mesh surfaces. Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.) □ building enclosing any of the above EUs if all enclosed EUs are not individually in compliance with emissions limits. {A "vent" is any opening through which there is mechanically induced air flow for the purpose of exhausting from a building air carrying particulate matter (PM) emissions from one or more affected EUs.} If answer to any of the four Questions 1 -4 above is "No" then the EU is not subject to subpart OOO so skip the following questions and go directly to Question 24. If the answer to all of the four Questions 1-4 above is "Yes" then continue to Question 5. 5. Is the EU subject to 40 CFR part 60 subpart F (Portland Cement Plants) or subpart I (Hot Mix Asphalt Facilities), or does it follow in the plant process any other EU that is subject to 40 CFR part 60 subpart F or subpart I? | | | | |

| | Q | | ⊥ 1 es | □ 1 10 |
| Too Million (10 tollion) | ٠. | | ☐ Yes | No. |
| | | 1 | | |

2 –NMMP Plant-reloc crusher, diesel IC engine, 250 hp

| ; | Is the EU a wet screening operation or subsequent screening operation, bucket elevator or belt conveyor in a production line that processes saturated material up to the first crusher, grinding mill or storage bin in the production line? | l ng | s ⊠No |
|--------------|---|------------------------------|------------|
| | Is the EU a screening operation, bucket elevator or belt conveyor in the production line downstream of wet mining operation that process saturated material up to the first crusher, grinding mill or storage bin in the production line? | ☐ Ye | s ⊠No |
| sub If th | nswer to any of the six Questions 5 -10 above is "Yes" then the EU is not subject to part OOO so skip the following questions and go directly to Question 24. he answer to all of the six Questions 5-10 above is "No" then continue to Question 11. When was the EU last constructed, modified, or reconstructed? | | |
| | Was the EU constructed, modified, or reconstructed on or after 4/22/2008? | ☐ Ye | s \[\] No |
| If a | nswer to Question 12 is "No" skip the following questions and go directly to Question 20 | | |
| 13. | Does the EU have a particulate matter <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device? | ☐ Ye | s 🔲No |
| If a | nswer to Question 13 is "No" skip the following questions and go directly to Question 19 | | |
| 1 | Initial Tests: a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU? | ☐ Ye ☐ Ye ☐ Ye ☐ Ye | s |
| j | If the EU is a building enclosing any other regulated EUs and all enclosed EUs are not individually in compliance with emissions limits: a. Was an initial PM stack test performed on each vent control device within 180 days of initial startup of the EU? | ☐ Ye | s 🗌 No |
| | b. If yes, was the EU found to be in compliance with the PM limit of 0.032 g/dscm (0.014 gr/dscf)? c. Was an initial VE test performed on fugitive emissions from non-vent building openings? d. Were initial fugitive emissions from non-vent building openings less than or equal to 7% opacity? | ☐ Ye ☐ Ye ☐ Ye | s 🔲No |

2 –NMMP Plant-reloc crusher, diesel IC engine, 250 hp

| 16. Is a baghouse used to control emissions from the EU? | □ Y | es 🗵No |
|---|------------|--------------------------|
| If yes, the owner operator: conducts quarterly 30-minute VE tests using Method 22; uses a bag leak detection system specified in 40 CFR 60.674(d); follows the requirements of 40 CFR 63AAAAA Lime Manufacturin as specified in 40 CFR 60.674(e); or none of the above (i.e., out of compliance) | | |
| 17. If the EU is an individual, enclosed storage bin controlled by a baghouse, were initial fugitive emissions less than or equal to 7% opacity? N/A | □ Y | es No |
| 18.Is a wet scrubber used to control emissions from the EU? If yes, does the owner/operator maintain and operate: | □ Y | es ⊠No |
| a. a device for the continuous measurement of the pressure loss of the gas stream through the scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's instructions? | □ Y | es □No |
| b. a device for the continuous measurement of the scrubbing liquid flow rate to the wet scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's instructions? {Note: The monitoring device must be certified by the manufacturer to be accurate within +5% of design scrubbing liquid flow rate.} | | es □No |
| 19. Is wet suppression used to control emissions from the EU? | X Y | esNo |
| If yes: a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles? b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly? c. Is each inspection of the spray nozzles, including the date and any corrective action taken, recorded in the written or electronic logbook as required by 40 CFR 60.676(b)? | □ Y | ′es □No |
| If the EU was constructed, modified, or reconstructed on or after 4/22/2008 skip the following questions and go directly to Question 24. | | |
| 20. Does the EU have a particulate matter <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device? | □ Y | esNo |
| 21. Initial Tests: a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU? | ☐ Y ☐ Y | res No resNo resNo resNo |

Facility Section (continued)

| REASONABLE PRECAUTIONS FOR UNCONFINED EMISSIONS | (check 🗹 box for each | only one question) |
|---|-------------------------|--------------------|
| 1. Does the owner/operator of the NMMP Plant take reasonable precautions to control unconfined | | |
| emissions by: a) Use of water suppression system(s) with spray bars located wherever unconfined emissions occur (at the feeder(s), the entrance and exit of the crusher(s), the classifier screens, and the conveyor drop points)? N/A If no, where are unconfined emissions occurring? | ☐ Yes | □ No |
| b) Use of water trucks equipped with spray bars to apply water or effective dust suppressant(s) on a regular basis (to all stockpiles, roadways and work yards)? N/A c) Paving and maintaining roads and parking areas? N/A d) Removal of particulate matter from roads and other paved areas under control | ☐ Yes ⊠ Yes | ☐ No ☐ No |
| of the owner/operator to prevent re-entrainment, and from building or work areas to reduce airborne particulate matter? N/A e) Reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of | Yes | ☐ No |
| particulate matter from stock piles? \[\] N/A | ⊠ Yes | ☐ No |
| 2. If reasonable precautions <u>not</u> being taken: a) Did the inspector perform a general VE test (20% opacity)? N/A b) If tested: ()% opacity. Were the visible emissions < 20% opacity? c) What caused the problem(s) (if known)? | ☐ Yes ☐ Yes | □ No □No |
| | | |
| CONFIRMATION OF GENERAL PERMIT ELIGIBILITY | (check 🗹 box for each o | only one question) |
| Does this facility keep records to show that it does not have the potential to emit: a) 10 tons per year or more of any hazardous air pollutant? b) 25 tons per year or more of any combination of hazardous air pollutants? c) 100 tons per year or more of any other regulated air pollutant? | - Yes | ⊠No ⊠No ⊠No |
| 2. Does this facility include: a) any emission units or activities not covered by the applicable air general permit (with the exception units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) o Rule 62-4.040, F.A.C.)? If YES, what non-exempt units or activities? | or | ⊠No |
| b) any emissions units or activities authorized by another air general permit where such other air gene permit and this general permit specifically allow the use of one another at the same facility? If YES, what other general permit units or activities? | | ⊠No |

| <u>(</u> 27 | Is the total combined annual facility-wide fuel usage of all plants less than or equal to: a) 275,000 gallons of diesel fuel? | X Y X Y X Y X Y X Y X Y | Yes Yes Yes Yes ≤ 1.00° | No No No No No ? |
|-------------|--|-------------------------|-------------------------------------|--------------------------------------|
| Gl | ENERAL CONDITIONS | (chec | k 🗹 | only one |
| 1. | Has the owner or operator allowed the circumvention of any air pollution control device, or | • | | question) |
| _ | Allowed the emission of air pollutants without the proper operation of all applicable air pollution control devices? | <u> </u> | Yes | ⊠No |
| 2. | Does the owner or operator: a) maintain the authorized facility in good condition? b) ensure that the facility maintains its eligibility to use the air general permit and complies with all | - X | Yes | □No |
| 3 | terms and conditions of the air general permit? Has the owner or operator allowed you, as the duly authorized representative of the Department, access | <u> </u> | Yes | □No |
| ٥. | to the facility at reasonable times to inspect and test and to determine compliance with the air general permit and Department rules? | | Yes | □No |
| | | | | |
| | ELOCATABLE PLANT The facility: ☐ is stationary; ☒ is relocatable; or ☐ consists of both stationary and relocatable NMMP and/or concrete batching plants. (<i>If only stationary, skip the following questions 2 and 3.</i>) | (chec box for | | only one question) |
| 2. | For a relocated NMMP plant: a) did the owner or operator notify the appropriate Department or Local Air Program by telephone, e-mail, fax, or written communication at least one business day prior to changing location? b) did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900(6 to the Department or Local Air Program no later than five business days following relocation? | 5)] | | □No |
| 3. | If the relocatable NMMP plant was co-located at a facility with a separate air construction or air operar permit, and the relocatable NMMP plant is <u>not</u> included as an emissions unit in that separate permit: a) was the relocatable NMMP plant being used for a non-routine purpose? ———————————————————————————————————— | | Yes Yes Yes | No |

| strative Changes: e there any changes in the name, address, or phone nu associated with a change in ownership or with a physical roperations comprising the facility; or any other similar mi If YES, did the facility provide written notification within | relocation of the facility or any emissions units or inor administrative change at the facility? Yes | only one question) |
|--|--|--------------------|
| New or Modified Process Equipment or Change in Ownership: 3. Since the last registration form submittal has there been a) Installation of any new process equipment? | | |
| Michelle Robinson-Austin Inspector's Name (Please Print) | December 7, 2011 Date of Inspection December 7, 2012 | |
| Inspector's Signature | Approximate Date of Next Inspection | |

COMMENTS: The inspection was hosted by Randy Beckford. No violations were observed. The facilitywas found to be in compliance at the time of the inspection.
