WOOD CRUSHER PROCESSING Image: Crusher Processing PLANTS Environmental Compliance			
COMPLIANCE INSPECTION CHECKLIST			
INSPECTION TYPE: ANNUAL (INS1, INS2) COMPLAINT/DISCOVERY (CI) RE-INSPECTION (FUI) ARMS COMPLAINT NO:			
AIRS ID#: 7775701 001 DATE: <u>12/4/2013</u> ARRIVE: <u>1:00 PM</u> DEPART: <u>2:30 PM</u> FACILITY NAME: Peninsula Equipment FACILITY LOCATION: Relocatable			
, FL OWNER/AUTHORIZED REPRESENTATIVE: Stephen Sowards PHONE: 803-808-1115 Email: ssowards@blanchardmachinary.com Mobile: CONTACT NAME: Stephen Sowards PHONE: 803-808-1115 Email: / ssowards@blanchardmachinary.com Mobile: ENTITLEMENT PERIOD: 8-29-11 /: 803-808-1115 (effective date) (end date)			
EMISSION UNIT DESCRIPTION : Doppstadt Horizontal Grinder - Year 2007, Model AK30 SN - W092012167D07089 Rated at 50 tph. It appears to be a wood grinder			
Facility Section			
PART I: INSPECTION COMPLIANCE STATUS (check ☐ only one box)			
PART II: ONSITE INTRODUCTORY MEETING (check only one box for each question) 1. Name(s) of facility representative(s): (check only one box for each question)			
Brief Notes : 12-6-13- Field inspection was conducted at 3741 126th Avenue North. The emission unit was no longer onsite. Mr. Pate Clements the owner of Greenway Recycling Company stated that Peninsula Equipment Company brought the Wood Grinder #7775701-001-AG (wood crusher) onsite for demonstrations in 1-2-2011. Mr. Clements stated the Wood Grinder #7775701-001-AG (wood crusher) was returned back to the City of Lake land.			

Mr. Clements stated previously it was his intention to purchase the Wood crusher #7775701-001-AG from Peninsula Equipment Company, but later bought another wood crusher from another company. The wood crusher was in operation during my inspection.

This facility's operations are monitored through the FDEP Solid Waste Division, under permit SWD /52/49648 and they are coordinating reviews with the Air Quality Division, which have determined an Air Operations Permit is not required at this time.

Mr. Stephen Sowards the Authorized Representative was informed the wood crusher is not eligible for general permit. I explained to Mr. Sowards he needed to send a letter rescind the wood crusher general permit to Pinellas County AQ Division.

2.	Is the Authorized Representative still Stephen Sowards? If no, who is?:	Xes Yes	No
3.	If different, did the facility provide an administrative update within 30 days? Is the facility contact still Stephen Sowards? If no, who is?:	Yes Yes	□No □No
4.	Will facility be conducting VE test(s) during today's inspection?	Yes Yes	⊠No □No

Emissions Unit Section <u>1-Crusher Unit A</u>

		(check 🗹	only one
		box for each	question)
Ιc	the Emissions Unit (EU) subject to 40 CFR part 60 subpart OOO – Nonmetallic Mineral Process		1
15	 (Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the major is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Gran Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Carbonate, Sodium Chla and Sodium Sulfate; (7) Pumice; (8) Gilsonite; (9) Talc and Pyrophyllite; (10) Boron, including Borax and Colemanite; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermi (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumortierite.} 	ity ite, l Gravel; Salt; oride, c, Kernite,	
1.	Is the EU located at a fixed or portable nonmetallic mineral processing plant		
l	or hot mix asphalt plant that has an aboveground crusher or grinding mill?	Yes	No
2.	Is the EU located above ground (i.e., not in an underground mine)?	Yes	No
	Was the EU constructed, modified, or reconstructed after August 31, 1983?	Yes	No
4.	Is the EU one of the following?	Yes	No
	 crusher, grinding mill, bucket elevator, belt conveyor, bagging operation, storage bin, enclosed truck loading station enclosed railcar loading station; crusher or grinding mill at hot mix asphalt plant that reduces the size of nonmetallic minerals embedded in recycled asphalt pavement or subsequent emissions unit up to, but not including, the first storage silo or bin; screening operation (a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series, and retaining oversize material on the mesh surfaces. Grizzly feeders associated with truck dumping and static (non-moving) grizzlies used anywhere in the nonmetallic mineral processing plant are not considered to be screening operations.) building enclosing any of the above EUs if all enclosed EUs are not individually in compliance with emissions limits. <i>{A "vent" is any opening through which there is mechanically induced air flow for the purpose of exhausting from a building air carrying particulate matter (PM) emissions from one or more affected EUs.}</i> 		
	answer to any of the four Questions 1 -4 above is "No" then the EU is not subject to		
	bpart OOO so skip the following questions and go directly to Question 24.		
If	the answer to all of the four Questions 1-4 above is "Yes" then continue to Question 5.		
5.	Is the EU subject to 40 CFR part 60 subpart F (Portland Cement Plants) or subpart I (Hot Mix Asphalt Facilities), or does it follow in the plant process		
	any other EU that is subject to 40 CFR part 60 subpart F or subpart I?	Yes	No
6.	Is the EU located at a fixed sand and gravel plant or crushed stone plant with a	□ ••	—
-	capacity less than or equal to 23 megagrams/hour (25 tons/hour)?	Yes	No
	Is the EU located at a portable sand and gravel plant or crushed stone plant with a capacity less than or equal to 136 megagrams/hour (150 tons/hour) ?	Yes	No
0.	equal to 9 megagrams/hour (10 tons/hour) ?	Yes	No

<u>1 – Crusher Unit A</u>

9. Is the EU a wet screening operation or subsequent screening operation, bucket elevator or belt conveyor in a production line that processes saturated material up to the first crusher,	_	_	_
grinding mill or storage bin in the production line?	ed l ng	řes [No
10. Is the EU a screening operation, bucket elevator or belt conveyor in the production line downstream of wet mining operation that process saturated material up to the first crusher, grinding mill or storage bin in the production line?	ו 🗆	Yes [No
{Note: Wet mining operation means a mining or dredging operation designed and operated to extract any nonmetallic mineral from deposits existing at or below the water table, where the nonmetallic mineral is saturated with water. "Saturated material" means mineral material with sufficient surface moisture such that particulate matter emissions are not generated from processing of the material through screening operations, bucket elevators and belt conveyors. Material that is wetted solely by wet suppression systems is not considered to be "saturated" for purposes of this definition.}			
If answer to any of the six Questions 5 -10 above is "Yes" then the EU is not subject to subpart OOO so skip the following questions and go directly to Question 24. If the answer to all of the six Questions 5-10 above is "No" then continue to Question 11.			
11. When was the EU last constructed, modified, or reconstructed?			
12. Was the EU constructed, modified, or reconstructed on or after 4/22/2008?	ז 🗌	Yes [No
If answer to Question 12 is "No" skip the following questions and go directly to Question 20			
13.Does the EU have a particulate matter <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device?	נ 🗌	Yes []No
If answer to Question 13 is "No" skip the following questions and go directly to Question 19			
14. Initial Tests:			
 a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU?	נ נ	Yes [Yes [Yes [Yes [No No No No
15. If the EU is a building enclosing any other regulated EUs and all enclosed EUs are not			
 individually in compliance with emissions limits: a. Was an initial PM stack test performed on each vent control device within 180 days of initial startup of the EU? N/A <i>{A "vent" is any opening through which there is mechanically induced air flow for the</i> <i>purpose of exhausting from a building air carrying particulate matter (PM) emissions from</i> 	נ 🗌	Yes [] No
one or more affected EUs.} b. If yes, was the EU found to be in compliance with the PM limit of 0.032 g/dscm (0.014 gr/dscf)? c. Was an initial VE test performed on fugitive emissions from non-vent building openings? d. Were initial fugitive emissions from non-vent building openings less than or equal to 7% opacity?	ו 🗍 ו	Yes [Yes [Yes []No]No]No

<u>1 – Crusher Unit A</u>

16. Is a baghouse used to control emissions from the EU?	Yes	No
If yes, the owner operator: Conducts quarterly 30-minute VE tests using Method 22;		
uses a bag leak detection system specified in 40 CFR 60.674(d);		
follows the requirements of 40 CFR 63AAAAA Lime Manufacturin	ng	
as specified in 40 CFR 60.674(e); or	-	
none of the above (i.e., out of compliance)		
17. If the EU is an individual, enclosed storage bin controlled by a baghouse,		
were initial fugitive emissions less than or equal to 7% opacity? N/A	Yes	🗌 No
18. Is a wet scrubber used to control emissions from the EU?	Yes	No
If yes, does the owner/operator maintain and operate:		
a. a device for the continuous measurement of the pressure loss of the gas stream through the		
scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's		
instructions?	Yes	No
{Note: The monitoring device must be certified by the manufacturer to be accurate within +250		
pascals +1 inch water gauge pressure.}		
and		
b. a device for the continuous measurement of the scrubbing liquid flow rate to the wet scrubber and the	;	
device has been calibrated on an annual basis in accordance with manufacturer's instructions ?	Yes	No
{Note: The monitoring device must be certified by the manufacturer to be accurate within +5%		
of design scrubbing liquid flow rate.}		
19. Is wet suppression used to control emissions from the EU?	Yes	No
19.Is wet suppression used to control emissions from the EU?	Yes	No
If yes:	Yes	No
	Yes	No
If yes: a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles?	Yes	No
If yes:a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles?b. Does the owner/operator initiate corrective action within 24 hours and complete	Yes	No
If yes:a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles?b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly?	Yes	No
 If yes: a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles? b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly? c. Is each inspection of the spray nozzles, including the date and any corrective action taken, 		
If yes:a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles?b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly?		No
 If yes: a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles? b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly? c. Is each inspection of the spray nozzles, including the date and any corrective action taken, recorded in the written or electronic logbook as required by 40 CFR 60.676(b)?		
 If yes: a. Does the owner/operator perform monthly inspections to check that water is flowing to the discharge spray nozzles? b. Does the owner/operator initiate corrective action within 24 hours and complete corrective action as expediently as practical is water is not flowing properly? c. Is each inspection of the spray nozzles, including the date and any corrective action taken, recorded in the written or electronic logbook as required by 40 CFR 60.676(b)?

All other affected EUs	20%	10%	7%

<u>RI</u>	EASONABLE PRECAUTIONS FOR UNCONFINED EMISSIONS	(check 🗹 box for each d	only one question)
1.	 Does the owner/operator of the NMMP Plant take reasonable precautions to control unconfined emissions by: a) Use of water suppression system(s) with spray bars located wherever unconfined emissions occur (at the feeder(s), the entrance and exit of the crusher(s), the classifier screens, and the conveyor drop points)? N/A If no, where are unconfined emissions occurring? 	🗌 Yes	🗌 No
	 b) Use of water trucks equipped with spray bars to apply water or effective dust suppressant(s) on a regular basis (to all stockpiles, roadways and work yards)? N/A c) Paving and maintaining roads and parking areas? N/A d) Removal of particulate matter from roads and other paved areas under control of the owner/operator to prevent re-entrainment, and from building or work areas to reduce airborne particulate matter? N/A e) Reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of 	YesYesYes	No No No
2.	particulate matter from stock piles? N/A If reasonable precautions <u>not</u> being taken: a) Did the inspector perform a general VE test (20% opacity)? N/A b) If tested: ()% opacity. Were the visible emissions < 20% opacity? c) What caused the problem(s) (if known)?	☐ Yes ☐ Yes ☐ Yes	☐ No ☐ No ☐No

CONFIRMATION OF GENERAL PERMIT ELIGIBILITY (check \square only one box for each question) 1. Does this facility keep records to show that it does not have the potential to emit: a) 10 tons per year or more of any hazardous air pollutant? ----- Yes ...No b) 25 tons per year or more of any combination of hazardous air pollutants? ------ 🗍 Yes ...No c) 100 tons per year or more of any other regulated air pollutant? ------ Types ...No 2. Does this facility include: a) any emission units or activities not covered by the applicable air general permit (with the exception of units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) or Rule 62-4.040, F.A.C.)? ------ Yes ...No If YES, what non-exempt units or activities? b) any emissions units or activities authorized by another air general permit where such other air general permit and this general permit specifically allow the use of one another at the same facility? ----- Yes ...No If YES, what other general permit units or activities?

3.	Is the total combined annual facility-wide fuel usage of all plants less than or equal to:	
	a) 275,000 gallons of diesel fuel? Yes	No
	b) 23,000 gallons of gasoline? Yes	No
	c) 44 million standard cubic feet on natural gas? Yes	No
	d) 1.3 million gallons of propane? Yes	No
	e) or an equivalent prorated amount if multiple fuels are used onsite (use equation below)? [] Yes	No
<u>(</u> 2'	<u>) gal diesel/yr</u> + (<u>) gal gasoline/yr</u> + (<u>) MM SCF nat. gas/yr</u> + (<u>) MM gal propane/yr</u> ≤ 1.00 ? 75,000 gal diesel/yr 23,000 gal gasoline/yr 44 MM SCF nat. gas/yr 1.3 MM gal propane/yr	
4.	Has the owner/operator maintained, available for inspection, site-wide records of monthly fuel consumption for each consecutive 12-period for the past 5 years? Yes	No

G	ENERAL CONDITIONS	(check 🗹	•
1.	Has the owner or operator allowed the circumvention of any air pollution control device, or	box for each	question)
	Allowed the emission of air pollutants without the proper operation of all applicable air pollution control devices?	□ Yes	□No
2.	Does the owner or operator:		
	a) maintain the authorized facility in good condition?b) ensure that the facility maintains its eligibility to use the air general permit and complies with all	- 🗌 Yes	LNo
	terms and conditions of the air general permit?		No
3.	Has the owner or operator allowed you, as the duly authorized representative of the Department, acces to the facility at reasonable times to inspect and test and to determine compliance with the air general	S	
	permit and Department rules?	- 🗌 Yes	No

	ELOCATABLE PLANT The facility: is stationary; is relocatable; or consists of both stationary and relocatable NMMP and/or concrete batching plants. (If only stationary, skip the following questions 2 and 3.)	(check 🗹 box for each	only one question)
2.	 For a relocated NMMP plant: a) did the owner or operator notify the appropriate Department or Local Air Program by telephone, e-mail, fax, or written communication at least one business day prior to changing location? b) did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900(to the Department or Local Air Program no later than five business days following relocation?	6)]	□No □No
3.	If the relocatable NMMP plant was co-located at a facility with a separate air construction or air operate permit, and the relocatable NMMP plant is <u>not</u> included as an emissions unit in that separate permit: a) was the relocatable NMMP plant being used for a non-routine purpose?		No
	 b) were records kept by the owner/operator to indicate how long it was co-located at the permitted facility?	Yes Yes	□No □No

	HANGES ministrative Changes:	(check ☑ box for each	only one question)
	Were there any changes in the name, address, or phone number of the facility or authorized representa associated with a change in ownership or with a physical relocation of the facility or any emissions un operations comprising the facility; or any other similar minor administrative change at the facility? If YES, did the facility provide written notification within 30 days of the change?	nits or	□No □No
	 w or Modified Process Equipment or Change in Ownership: Since the last registration form submittal has there been a) Installation of any new process equipment?	🗌 Yes	No
4.	 c) Replacement of existing equipment with equipment that is substantially different?	🗌 Yes omitted	□No □No □No

Date of Inspection

Inspector's Signature

Approximate Date of Next Inspection

COMMENTS: 12-6-13- Field inspection was conducted at 3741 126th Avenue North. The emission unit was no longer onsite. Mr. Pate Clements the owner of Greenway Recycling Company stated that Peninsula Equipment Company brought the Wood Crusher #7775701-001-AG (wood crusher) onsite for demonstrations on 1-2-2011. Mr. Clements stated the Wood Grinder #7775701-001-AG (wood crusher) was returned back to the City of Lake land.

Mr. Clements stated previously it was his intention to purchase the Wood crusher #7775701-001-AG from Peninsula Equipment Company, but later bought another wood crusher from another company. The wood crusher was in operation during my inspection.

This facility's operations are monitored through the FDEP Solid Waste Division, under permit SWD /52/49648 and they are coordinating reviews with the Air Quality Division, which have determined an Air Operations Permit is not required at this time.

Mr. Stephen Sowards the Authorized Representative was informed the wood crusher is not eligible for general permit. I explained to Mr. Sowards he needed to send a letter rescind the wood crusher general permit to Pinellas County AQ Division.
