COMMENTS: On December 02, 2013 I visited this facility to conduct the annual compliance inspection. On site I met Arthuro Salgueiro, the manager of the facility. This is a Fiberglass Boat Manufacturing and Repair Shop that has started operating approximately two months ago.. Over the past two months this facility manufactured three boats. In stock I witnessed 1-55 gallon resin and 1-5 gallon gelcoat drum. No objectionable odor was detected inside or outside the facility.
