COMPLIANCE INSPECTION CHECKLIST

| | AINT/DISCOVERY (CI) OMPLAINT NO: | | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------|--|--|--|--|--|
| AIRS ID#: 7775776 DATE: <u>2/6/14</u> ARRIVE: <u>1:00</u> DEPART: <u>2:00</u> | | | | | | |
| FACILITY NAME: CLIFTON MINE | | | | | | |
| FACILITY LOCATION: 4202 NW 27th Ave | | | | | | |
| OCALA 34475-2937 | | | | | | |
| OWNER/AUTHORIZED REPRESENTATIVE: LARRY MANNING Email: lmanning@magnummaterials.net CONTACT NAME: Email: lmanning@magnummaterials.net ENTITLEMENT PERIOD: 8/11/2013 / 8/11/2018 (effective date) (end date) PHONE: (352)622-2839 Mobile: Mobile: Mobile: | | | | | | |
| Facility Section PART I: INSPECTION COMPLIANCE STATUS (check ☑ only one box) ☐ IN COMPLIANCE ☐ MINOR Non-COMPLIANCE ☐ SIGNIFICANT Non-COMPLIANCE | | | | | | |
| | | | | | | |
| PART II: ONSITE INTRODUCTORY MEETING 1. Name(s) of facility representative(s): Larry Manning Brief Notes: | (check ☑ only one box for each question) | | | | | |
| 2. Is the Authorized Representative still LARRY MANNING? If no, who is?: | \(\sum \text{Yes} \subseteq \text{No} | | | | | |
| If different, did the facility provide an administrative update within 3 3. Is the facility contact still LARRY MANNING? If no, who is?: | | | | | | |
| 4. Will facility be conducting VE test(s) during today's inspection? If yes, was the compliance authority notified at least 15 days in advan | | | | | | |

Emissions Unit Section 1 –NMMP Plant-crusher #3(limerock)w/dieselpwrunit, 350T/hr

| Some the Emissions Unit (EU) subject to 40 CFR part 60 subpart OOO — Nonmetallic Mineral Processing Plants? (Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majority is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granite, Traprock, Sandstone, Quartz, Quartzie, Mart, Marble, State, Shale, Old Shale, and Shell: (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay, (4) Rock Salt; (5) Gypsum (natural or synthetic); (6) Sadium Compounds, including Sodium Carbonate, Sodium Chloride, and Sodium Suldiate; (7) Pumice; (8) Gilomite; (9) Tade and Psyrophyllite; (10) Borno, including Borax, Kernite, and Colemanite; (11) Barrite; (12) Fluorospar; (13) Felaspar; (14) Diatomite; (15)Perlite; (16) Vermiculite; (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumortierite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? | | | (check ☑ | only one |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------|-----------|
| Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majority is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granite, Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock Salt; (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Combonate, Sodium Chloride, and Sodium Sulfaie; (7) Pumice; (8) Gilsonite; (9) Tale and Pyrophyllite; (10) Boron, including Borax, Kernite, and Colemanite; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermiculite; (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumoriterite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? Yes No 1. Is the EU located above ground (i.e., not in an underground mine)? Yes No 2. Is the EU constructed, modified, or reconstructed after August 31, 1983? Yes No 3. Was the EU constructed, modified, or reconstructed after August 31, 1983? Yes No 3. Is the EU one of the following? Yes No 3. Is the EU one of the following? Yes No 4. Is the EU one of the following? Yes No 5. Is the EU one of the following and that (not mix asphalt plant that reduces the size of nonmetallic minerals processing mill bucket elevator, belt conveyor, bagging operation, to the purpose of grinding mill at hot mix asphalt plant that reduces the size of nonmetallic mineral processing plant are not considered to be screening operation (a device for separating material according to size by passing undersize material through one or more mesh surfaces (screens) in series, and retaining oversize material through one or more mesh surfaces (screens) in series, and retaining oversize material through one or more mesh surf | | b | ox for each | question) |
| Note: "Nonmetallic mineral" means any of the following minerals or any mixture of which the majority is any of the following minerals: (1) Crushed and Broken Stone, including Limestone, Dolomite, Granite, Traprock, Sandstone, Quartz, Quartzite, Marl, Marble, Slate, Shale, Oil Shale, and Shell; (2) Sand and Gravel; (3) Clay including Kaolin, Fireclay, Bentonite, Fuller's Earth, Ball Clay, and Common Clay; (4) Rock Salt; (5) Gypsum (natural or synthetic); (6) Sodium Compounds, including Sodium Combonate, Sodium Chloride, and Sodium Sulfaie; (7) Pumice; (8) Gilsonite; (9) Tale and Pyrophyllite; (10) Boron, including Borax, Kernite, and Colemanite; (11) Barite; (12) Fluorospar; (13) Feldspar; (14) Diatomite; (15)Perlite; (16) Vermiculite; (17) Mica; (18) Kyanite, including Andalusite, Sillimanite, Topaz, and Dumoriterite.] 1. Is the EU located at a fixed or portable nonmetallic mineral processing plant or hot mix asphalt plant that has an aboveground crusher or grinding mill? Yes No 1. Is the EU located above ground (i.e., not in an underground mine)? Yes No 2. Is the EU constructed, modified, or reconstructed after August 31, 1983? Yes No 3. | | Q | | ⊥ Y es | ∐N0 |
| equal to 7 megagrams/nour (10 tons/nour): | 0. | | □ Ves | ⊠ No |
| | | equal to 7 megagrams nour (10 tons nour). | 1 Cs | ∠J10 |

1 -NMMP Plant-crusher #3(limerock)w/dieselpwrunit, 350T/hr

| | Is the EU a wet screening operation or subsequent screening operation, bucket elevator or belt conveyor in a production line that processes saturated material up to the first crusher, grinding mill or storage bin in the production line? | ed l ng | Yes | ⊠No |
|-------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|--------------------------|---------------------------|
| | Is the EU a screening operation, bucket elevator or belt conveyor in the production line downstream of wet mining operation that process saturated material up to the first crusher, grinding mill or storage bin in the production line? | | Yes | □No |
| sub If t | enswer to any of the six Questions 5 -10 above is "Yes" then the EU is not subject to part OOO so skip the following questions and go directly to Question 24. The answer to all of the six Questions 5-10 above is "No" then continue to Question 11. | | | |
| | When was the EU last constructed, modified, or reconstructed? Was the EU constructed, modified, or reconstructed on or after 4/22/2008? | | Yes | □No |
| | inswer to Question 12 is "No" skip the following questions and go directly to Question 20 | | 100 | |
| | Does the EU have a particulate matter <i>capture system</i> (equipment including enclosures, Hoods, fans, dampers, etc.) to capture and transport particulate matter to a control device? | | Yes | □No |
| If a | nswer to Question 13 is "No" skip the following questions and go directly to Question 19 | | | |
| | Initial Tests: a. Was an initial PM stack test performed on the control device within 180 days of initial startup of the EU? | | Yes Yes Yes Yes | ☐ No ☐No ☐No ☐No |
| | If the EU is a building enclosing any other regulated EUs and all enclosed EUs are not individually in compliance with emissions limits: a. Was an initial PM stack test performed on each vent control device within 180 days of initial startup of the EU? | | Yes | □ No |
| | b. If yes, was the EU found to be in compliance with the PM limit of 0.032 g/dscm (0.014 gr/dscf)? c. Was an initial VE test performed on fugitive emissions from non-vent building openings? d. Were initial fugitive emissions from non-vent building openings less than or equal to 7% opacity? | | Yes Yes Yes | No No No |

1 -NMMP Plant-crusher #3(limerock)w/dieselpwrunit, 350T/hr

| 16. Is a baghouse used to control emissions from the EU? | | Yes | □No |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|--------------------------|------|
| If yes, the owner operator: | | | |
| uses a bag leak detection system specified in 40 CFR 60.674(d); | | | |
| follows the requirements of 40 CFR 63AAAAA Lime Manufacturi | ng | | |
| as specified in 40 CFR 60.674(e); or | | | |
| none of the above (i.e., out of compliance) | | | |
| | | | |
| 17. If the EU is an individual, enclosed storage bin controlled by a baghouse, | _ | | _ |
| were initial fugitive emissions less than or equal to 7% opacity? N/A | □ ` | Yes | ∐ No |
| | | | |
| 18. Is a wet scrubber used to control emissions from the EU? | □ ` | Yes | ∐No |
| If yes, does the owner/operator maintain and operate: | | | |
| a. a device for the continuous measurement of the pressure loss of the gas stream through the | | | |
| scrubber and the device has been calibrated on an annual basis in accordance with manufacturer's | _ , | . 7 | |
| instructions? | | Yes | ∐No |
| {Note: The monitoring device must be certified by the manufacturer to be accurate within +250 | | | |
| pascals +1 inch water gauge pressure.} and | | | |
| b. a device for the continuous measurement of the scrubbing liquid flow rate to the wet scrubber and the | | | |
| device has been calibrated on an annual basis in accordance with manufacturer's instructions? | | Vec | □No |
| {Note: The monitoring device must be certified by the manufacturer to be accurate within +5% | ш | 103 | |
| of design scrubbing liquid flow rate.} | | | |
| of design serubbing fiquid flow rate. | | | |

Facility Section (continued)

| REASONABLE PRECAUTIONS FOR UNCONFINED EMISSIONS | (check ☑ box for each | only one question) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|--------------------|
| 1. Does the owner/operator of the NMMP Plant take reasonable precautions to control unconfined emissions by: | | |
| a) Use of water suppression system(s) with spray bars located wherever unconfined emissions occur (at the feeder(s), the entrance and exit of the crusher(s), the classifier screens, and the conveyor drop points)? \[\] N/A If no, where are unconfined emissions occurring? | ☐ Yes | ☐ No |
| b) Use of water trucks equipped with spray bars to apply water or effective dust suppressant(s) on a regular basis (to all stockpiles, roadways and work yards)? N/A c) Paving and maintaining roads and parking areas? N/A d) Removal of particulate matter from roads and other paved areas under control | ⊠ Yes ⊠ Yes | ☐ No ☐ No |
| of the owner/operator to prevent re-entrainment, and from building or work areas to reduce airborne particulate matter? N/A e) Reduction of stock pile height, or installation of wind breaks to mitigate wind entrainment of | ⊠ Yes | ☐ No |
| particulate matter from stock piles? N/A | Yes | ☐ No |
| 2. If reasonable precautions <u>not</u> being taken: a) Did the inspector perform a general VE test (20% opacity)? N/A b) If tested: ()% opacity. Were the visible emissions < 20% opacity? c) What caused the problem(s) (if known)? | ☐ Yes ☐ Yes | □ No □No |
| | | |
| CONFIRMATION OF GENERAL PERMIT ELIGIBILITY | (check 🗹 | only one |
| 1. Does this facility keep records to show that it does not have the potential to emit: a) 10 tons per year or more of any hazardous air pollutant? b) 25 tons per year or more of any combination of hazardous air pollutants? c) 100 tons per year or more of any other regulated air pollutant? | Yes Yes | No No No |
| 2. Does this facility include: a) any emission units or activities not covered by the applicable air general permit (with the exception units and activities that are exempt from permitting pursuant to subsection Rule 62-210.300(3) or Rule 62-4.040, F.A.C.)? | r | ⊠No |
| If YES, what non-exempt units or activities? | | |
| | | |

| (<u>275</u> | Is the total combined annual facility-wide fuel usage of all plants less than or equal to: a) 275,000 gallons of diesel fuel? | \ Y0 \ Y0 \ Y0 \ Y0 \ Y0 | es es es es (1.00? | No No No No No |
|--------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|--------------------------------|--------------------------------|
| CE | NEDAL CONDITIONS | | | |
| | NERAL CONDITIONS | (check | | only one uestion) |
| | Has the owner or operator allowed the circumvention of any air pollution control device, or Allowed the emission of air pollutants without the proper operation of all applicable air | JOA IOI | cacii q | uestion) |
|] | pollution control devices? | | es | ⊠No |
| | Does the owner or operator: a) maintain the authorized facility in good condition? | X Y | es | □No |
| | b) ensure that the facility maintains its eligibility to use the air general permit and complies with all | | | |
| 3.] | terms and conditions of the air general permit? | S Y | es | □No |
| 1 | to the facility at reasonable times to inspect and test and to determine compliance with the air general permit and Department rules? | Ye | es | □No |
| | | | | |
| RE | LOCATABLE PLANT | (check | | only one |
| | The facility: \square is stationary; \boxtimes is relocatable; or \square consists of both stationary and relocatable NMMP and/or concrete batching plants. (<i>If only stationary, skip the following questions 2 and 3.</i>) | box for | each q | uestion) |
| | For a relocated NMMP plant: | | | |
| ; | a) did the owner or operator notify the appropriate Department or Local Air Program by telephone, e-mail, fax, or written communication at least one business day prior to changing location? | X Ye | es | □No |
| 1 | b) did the owner or operator transmit a Facility Relocation Notification Form [DEP No. 62-210.900(6 | 5)] | | |
| | to the Department or Local Air Program no later than five business days following relocation? | Ye | es | □No |
| | If the relocatable NMMP plant was co-located at a facility with a separate air construction or air operate permit, and the relocatable NMMP plant is <u>not</u> included as an emissions unit in that separate permit: | tion | | |
| | a) was the relocatable NMMP plant being used for a non-routine purpose? | · 🗌 Ye | es | ⊠No |
| | If YES, what was the purpose? {Note: crushing recycled asphalt pavement (rap) at an asphalt plant is considered routine and so | | | |
| , | therefore must be authorized in the facility's air construction or operation permit.} | | | |
| | b) were records kept by the owner/operator to indicate how long it was co-located at the permitted facility? | | es | □No |
| | If YES, were any periods more than 6 months in any consecutive 12-month period? | ☐ Ye | es | □No |

| CHANGES Administrative Changes: | (check box for ea | only one ach question) |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------|------------------------|
| Were there any changes in the name, address, or phone massociated with a change in ownership or with a physical operations comprising the facility; or any other similar m If YES, did the facility provide written notification within | relocation of the facility or any emissions units or inor administrative change at the facility? Yes | _ |
| New or Modified Process Equipment or Change in Ownersh. 3. Since the last registration form submittal has there been a) Installation of any new process equipment? | Yes lacement? | ⊠No ⊠No □No |
