Yi & Cadedra,

Prestige Gunitite Florida LLC is closing the subject item location and is relocating the CCB Plant facility to a new address.

I was informed by the Owner/Authorized Representative, Mike Mahoney that this facility has always been a relocatable unit, but for some reason was originally permitted as a stationary unit. Since he is moving this unit to a new location, which requires submittal of a new registration form, his desire at the same time is to have this unit available for relocation in the future when the need arises. Therefore he has requested in his letter (.pdf copy attached) that this CCB Plant facility be registered as a relocatable unit.

Would you be so kind as to make that change, so I can complete the registration and renewal process of this AGP as a relocatable facility?

Thank you for your assistance with this conversion.

Let me know if you need any further information.

Dick
